More than just a digital signage creation tool

CleverLive

CleverLive is a Cloud Content Management platform for all Clevertouch Technology Devices.

Personalized Dashboard

At a view glance of:

- Connected displays
- Your personalized templates
- Number of users
- Storage
- And more useful features

Customized User Interface

Select your functionality:

- See your device features
- Quicker and easier to access the content you need.

One Touch Action Trigger

Use a mobile device:

- Select from preset virtual buttons to control content on screen with a single touch
- Send an alert – fire drill, intruder danger
- Change promotions for demographics
- Display induction videos

Alerts and Announcements

- Send alerts and announcements to individual screens, groups of screens, or all screens
- They can be scheduled, for example "break time" or "weekly fire drill"
- Display announcements for a set length of time
- Display alerts until the user clicks the screen
- Choose from our pre-made alerts and announcements, including fire alarms, weather warnings, and key times during the school day
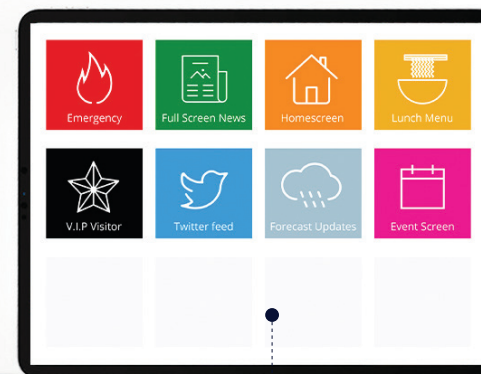

Interactive Audience Engagement

- Incorporate a QR code into your template designs
- Your audience can scan the QR code with their mobile device to change the presentation on the screen using your preset selections
- Add a URL for audience takeaway or call to action - opens in their browser
- Retail - more product information
- Education - calendar of events
- Wayfinding - building map
- Menus - F&B ordering

Control technology from one online platform

Stay connected

Keep everybody informed with a touch of a button. Send alerts, messages and announcements to everyone in the building.
