

Attention!

Everything works together powerfully

Build a Smart Ecosystem for Campus and Safety Communication

Attention! is now more powerful than ever and has evolved into a complete campus communication and safety ecosystem. Create your ideal school communication system with **Attention! Approved** devices and services that will work seamlessly together.

Whether broadcasting daily announcements, responding to emergencies, or anything in between, **Attention!** connects **displays, audio systems, 70-volt** and **IP-based devices**, and **safety platforms** to make communication across your campus, school district, and local community dynamic and effortless.

Attention! Approved Safety Alert Triggers

Attention! offers multiple ways to trigger an alert when every moment counts. Boxlight offers multiple alert button options to meet your emergency operation plan or state requirements.

- Squeeze alert buttons on the **FrontRow Action! Teacher Microphone**
- Alert button on the **MyFrontRow App** for Android device like interactive flat panels
- Programmable alert buttons on **FrontRow CB6000** or **CB2000** wall control panels
- On the interface of the **FrontRow Conductor Admin Station**
- Alert button on the **FrontRow UNITY Campus**
- Integrating **third-party trigger buttons** with your FrontRow devices
- From **computers** or **mobile devices** via **Attention!-approved** software

What can Attention! do for you?

Keep everyone safe and informed

Broadcast Emergency Audio and Visual Alerts

Instantly send urgent safety alerts, along with on-screen information to guide people to safety.

Quickly Protect Students and Staff

A fast emergency depends on alerting quickly. Boxlight offers multiple options to trigger an alert with the push of a button.

Effective Emergency Management

Create a system that meets local and state standards and executes your district's unique Emergency Operations Plan as intended.

Robust and Flexible School Management

Flexible Bell Scheduling

Create and update bell schedules in seconds. Adjusting for assemblies, minimum and test days is incredibly simple.

Rich Mass Communication

Publish preset audio or video messages to an entire school, school zone, or district wide.

Device Management and Automations

Easily control and manage networked devices and integrated services. Setup automations to streamline communications and actions.

Create a Culture of Connection

Support Communication Access and Equity

By supporting both audio and visual means of communication, there is equity and access in messaging for those that are either hearing or visual impaired.

Feeling Safe

When students and staff feel safe and secure, they are able to focus on meaningful learning experiences.

Everyone's on the Same Page

Networked devices work in sync, so everyone knows where to go and what to do.
