

FrontRow Live

Real-time transcription and translation for inclusive classrooms

Every voice heard. Every student included.

FrontRow Live is Boxlight's latest innovation designed to remove barriers to learning. By delivering real-time transcription and translation, it ensures students of all backgrounds and abilities can participate fully in the classroom.

FrontRow Live works as a web-based, standalone solution, but also seamlessly integrates with the MyClass learning platform and FrontRow audio systems. It empowers teachers to deliver accessible instruction without extra steps or hardware.

Benefits for Schools & Districts

- **Equity:** Every student, regardless of language or hearing ability, has equal access to instruction.
- **Engagement:** Students stay connected and confident with real-time support.
- **Compliance:** Aligns with ADA, IDEA, and ESSA Title III requirements.
- **Literacy Support:** Captions reinforce vocabulary and reading development for all learners.
- **Parent & Community Connection:** Facilitates multilingual communication at events and conferences.
- **Back-end analytics:** Available for districts on usage.

Proof of Impact

- Schools report up to 25% higher participation rates from ELL students with live captions and translation.
- Captions improve comprehension and retention for students with hearing loss and ADHD.
- Inclusive classrooms demonstrate higher engagement and lower behavior interruptions.

Key Features

- **Live Transcription:** Teacher speech instantly converted into readable text.
- **Multiple Languages Available:** Currently supports 32 languages for the speaker and 128 languages for captions.* Easy to install more as needed.
- **Instant Translation:** Supports translation of teacher speech in up to 10 different languages per session simultaneously.
- **Integrations:** Standalone (also works with MyClass and FrontRow audio systems).
- **Device Flexibility:** Captions and translations accessible on panels, tablets, laptops, and phones.
- **Privacy & Security:** Students control the use of captions and language display on their device.
- **No Extra Hardware:** Cost-effective and scalable districtwide.

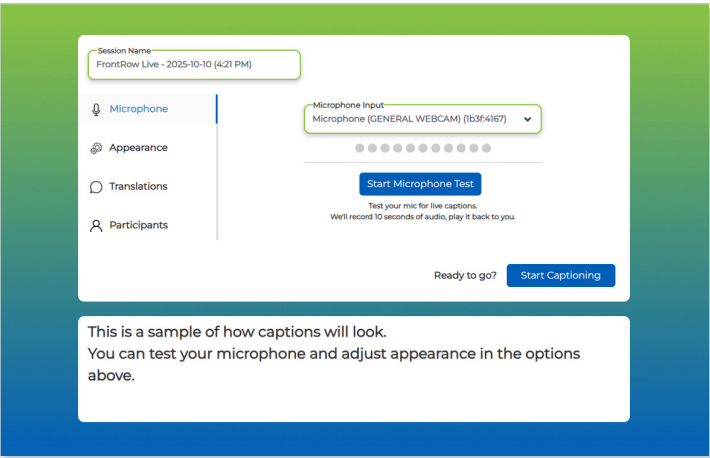

Use Cases

- **Classroom Instruction** – Captions and translations support ELLs, SPED, and auditory processing needs.
- **Hybrid/Remote Learning** – Captions aid virtual learners.
- **Family Engagement** – Translations for parents at in-person school presentations or parent-teacher conferences.

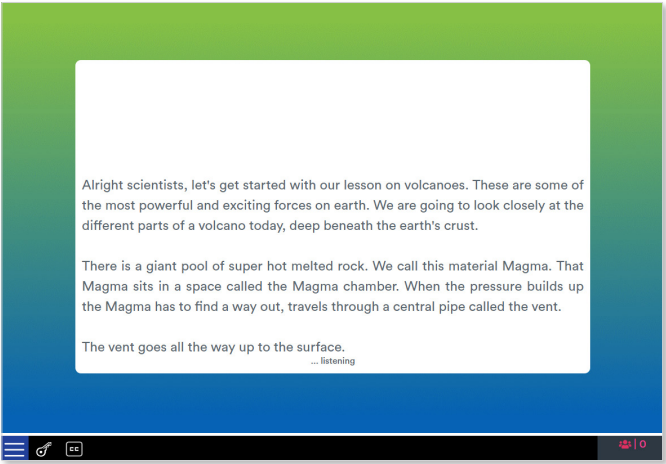

Speech requires installed language on the student's device.

* Check website for complete list of supported languages
