

# SM10 SIP Paging Interface

The **SM10 SIP Paging Interface** is designed to work seamlessly with Symphony, FrontRow's third-generation system for bells, paging, intercom, and alerting. It supports open-standard SIP protocols and offers 15 multicast priority levels to meet even the most demanding requirements. Perfect for providing SIP and multicast audio streams to your 70-volt common areas or retrofitting your current ezRoom.

## Applicable Scenarios

**FrontRow CM900 & Unity SIP/Multicast Bridge** - Add the SM10 SIP Paging Interface to your existing ezRoom system along with Symphony to add a SIP component to your current FrontRow audio systems.

**70-volt Common Area Audio** - Pair the SM10 SIP Paging Interface with our 70-volt amplifier solution to provide bell, paging and alerting audio throughout the building.

## Two-way Intercom

When paired with FrontRow ezRoom, the SM10 SIP Paging Interface supports a programmable "press-to-talk" switch button, providing two-way intercom calls.

## Multiple SIP Accounts

While designed for FrontRow's Symphony, the SM10 SIP Paging Interface supports up to three total SIP PBX connections.

## Multicast

The SM10 SIP Paging Interface offers 15 unique multicast priority streams, providing exceptional flexibility to meet your communication needs.

## Audio Codecs

The SM10 SIP Paging Interface supports four industry-standard audio codecs:

- G.722 (High Definition)
- G.711 (alaw)
- G.711 (ulaw)
- Opus (High Definition)

## Built-in Amplifier

A built-in amplifier, rated at 2x10W dual-channel output, and passive loudspeakers can be connected directly for stereo audio output. No external amplifier is needed.

## Power over Ethernet (PoE)

The SM10 SIP Paging Interface is powered via standard PoE (IEEE 802.3at), ensuring a streamlined installation and enabling network control through the built-in web interface or Symphony.

## Relay

The SM10 SIP Paging Interface is equipped with a NO/NC dry relay, enabling your existing FrontRow audio systems to be automatically muted during a Symphony audio event.

## The SM Series IP Audio Devices by FrontRow

**Network Speaker Clock**  
8000-00004

**Network Speaker**  
8000-00003

**Network Horn Speaker**  
8000-00005

**Network Interface**  
8000-00002

# Specifications

## Audio Interfaces

Amplifier Output	2x10W, 8Ω (4 pins)
Headset Output	3.5mm Jack
Microphone	3.5mm Jack

## Other Interfaces

Power Input	DC 12V-3A Jack. External power not included.
Volume Control	VOL+ and VOL-, press both to announce IP address
Ethernet	ETH0 + ETH1, 10/100Mbps, ETH0 with PoE IEEE 802.3at enabled
Call button	Support 2 call buttons (switch button)
Call button LED	Support 2 call button LED indicators
Digital level input	5V Max
Dry Contact	NO/NC contacts, max AC 125V-1A, DC 60V-1A

## Audio

Audio Codecs	G.722, G.711 a-law, G.711 μ-law, Opus
Music Streaming	MP3 sampling rate 8 – 48KHz, bit rate 64 – 320kbps, mono or Stereo

## Protocols

Protocols	SIP(RFC3261), HTTP, TCP/IP, SSL, DNS, SNTP, NTP, RTSP, RTP, RTCP, TCP, UDP, MQTT, ICMP, DHCP, ARP, SSH
-----------	--

## Mechanical Properties

Processor	ARM Cortex-A35
RAM	128MB DDR3
Storage	128MB SLC Flash

## Environmental

Working Environment	4°F ~ +122°F   -20°C ~ +50°C
Storage Environment	-40°F ~ +167°F   -40°C ~ +75°C
Humidity	10% ~ 95% RH (Relative Humidity) Non-condensing

## Other

Dimension	6" x 3"   153*76*33mm
Weight	10.6 ounces   303 grams
Reset Key	Press and hold for 5 seconds to reset to factory defaults
LED Indicator	PWR power indicator, SYS system indicator
Warranty Coverage	2 Years

# Mounting

## Included in the Box:

- 1 SM10 SIP Paging Interface
- 1 Phoenix Connector
- 1 Network Cable
- 1 M4 x 10 Clamping Screws
- 1 Grounding Cable
- 1 Mini Screwdriver
