

KWL chart

Name:

Date:

KWL stands for Know, Want to know, and Learned. A KWL chart helps you organize information about a topic.

1. Before reading, brainstorm and record everything you know about a topic in the **K** column.
2. Make a list of questions about what you want to know in the **W** column.
3. During or after reading, record the answers to your questions (plus other things you learned) in the **L** column.

Topic

K (Know)

W (Want to know)

L (Learned)
