Mimio Connected Classroom - Inspire Learning Through Innovative, Easy-to-Use Technology

Inside the Mimio Connected Classroom is where the doors to collaboration and critical thinking are blown open, the digital divide narrows and where bridges are built to connect students with potential and passion with purpose. The Connected Classroom is a place where technology and teaching professionals come together to illuminate possibilities and bring more power to knowledge.

Interactive Displays

Transform collaboration, discussions, and presentations.

Software & Curriculum

Deliver brilliant, hands-on, and engaging lessons.

Professional Development

Ensure a smooth technology integration with improved outcomes.

Audio & Communication

Create successful classrooms, and safer schools.

STEM Education

Open the door to inquiry-based learning.

Benefits of the Mimio Connected Classroom

EMPOWERS

Leaders, Educators, and Students

ENHANCES

Engagement Through Technology

ADAPTS

to Different Environments

ACCELERATES

Professional Development

At the center of the Connected Classroom is our MimioPro 4 Interactive Display

Feature-rich and robust, an out-of-the-box solution for modern classrooms.

High Precision Technology

Our patented Super Glide Touch technology offers the most fluid writing experience on a touch screen – as smooth as writing on a whiteboard.

Cloud Accounts

Sync with your cloud accounts so that you can work anywhere at any time.

Screen Mirroring

Up to 50 student or teacher devices can connect, with 9 shown on the display simultaneously.

Centralized Management

Networked Device Management System, a cloud-based software that gives you the ability to control and report on the operation of your displays through one easy-to-use portal.

CleverLive Digital Signage

A rich cloud content management platform that empowers users to manage content using any internet device anywhere in the world.

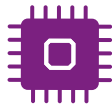

Enhance Favorite Lessons

Open 3rd party content created in programs such as SMART Notebook, ActivInspire, PDF, IWB and Power-Point without the need of a time-consuming conversion process.

4K Resolution

State-of-the-art, ultra-high definition (native 4K UHD) LCD display.

4GB RAM & 32GB ROM

All the storage and memory needed to create a seamless user experience.

USB-C Charging Port

Latest-generation USB-C with charging and hardware optimization.

16W Speakers

2 front-facing, high-powered speakers deliver crystal clear sound quality.

6 Array Microphones

Built-in microphones are perfect for recording lessons & meetings.

LED Backlighting

LED backlighting for energy efficiency.

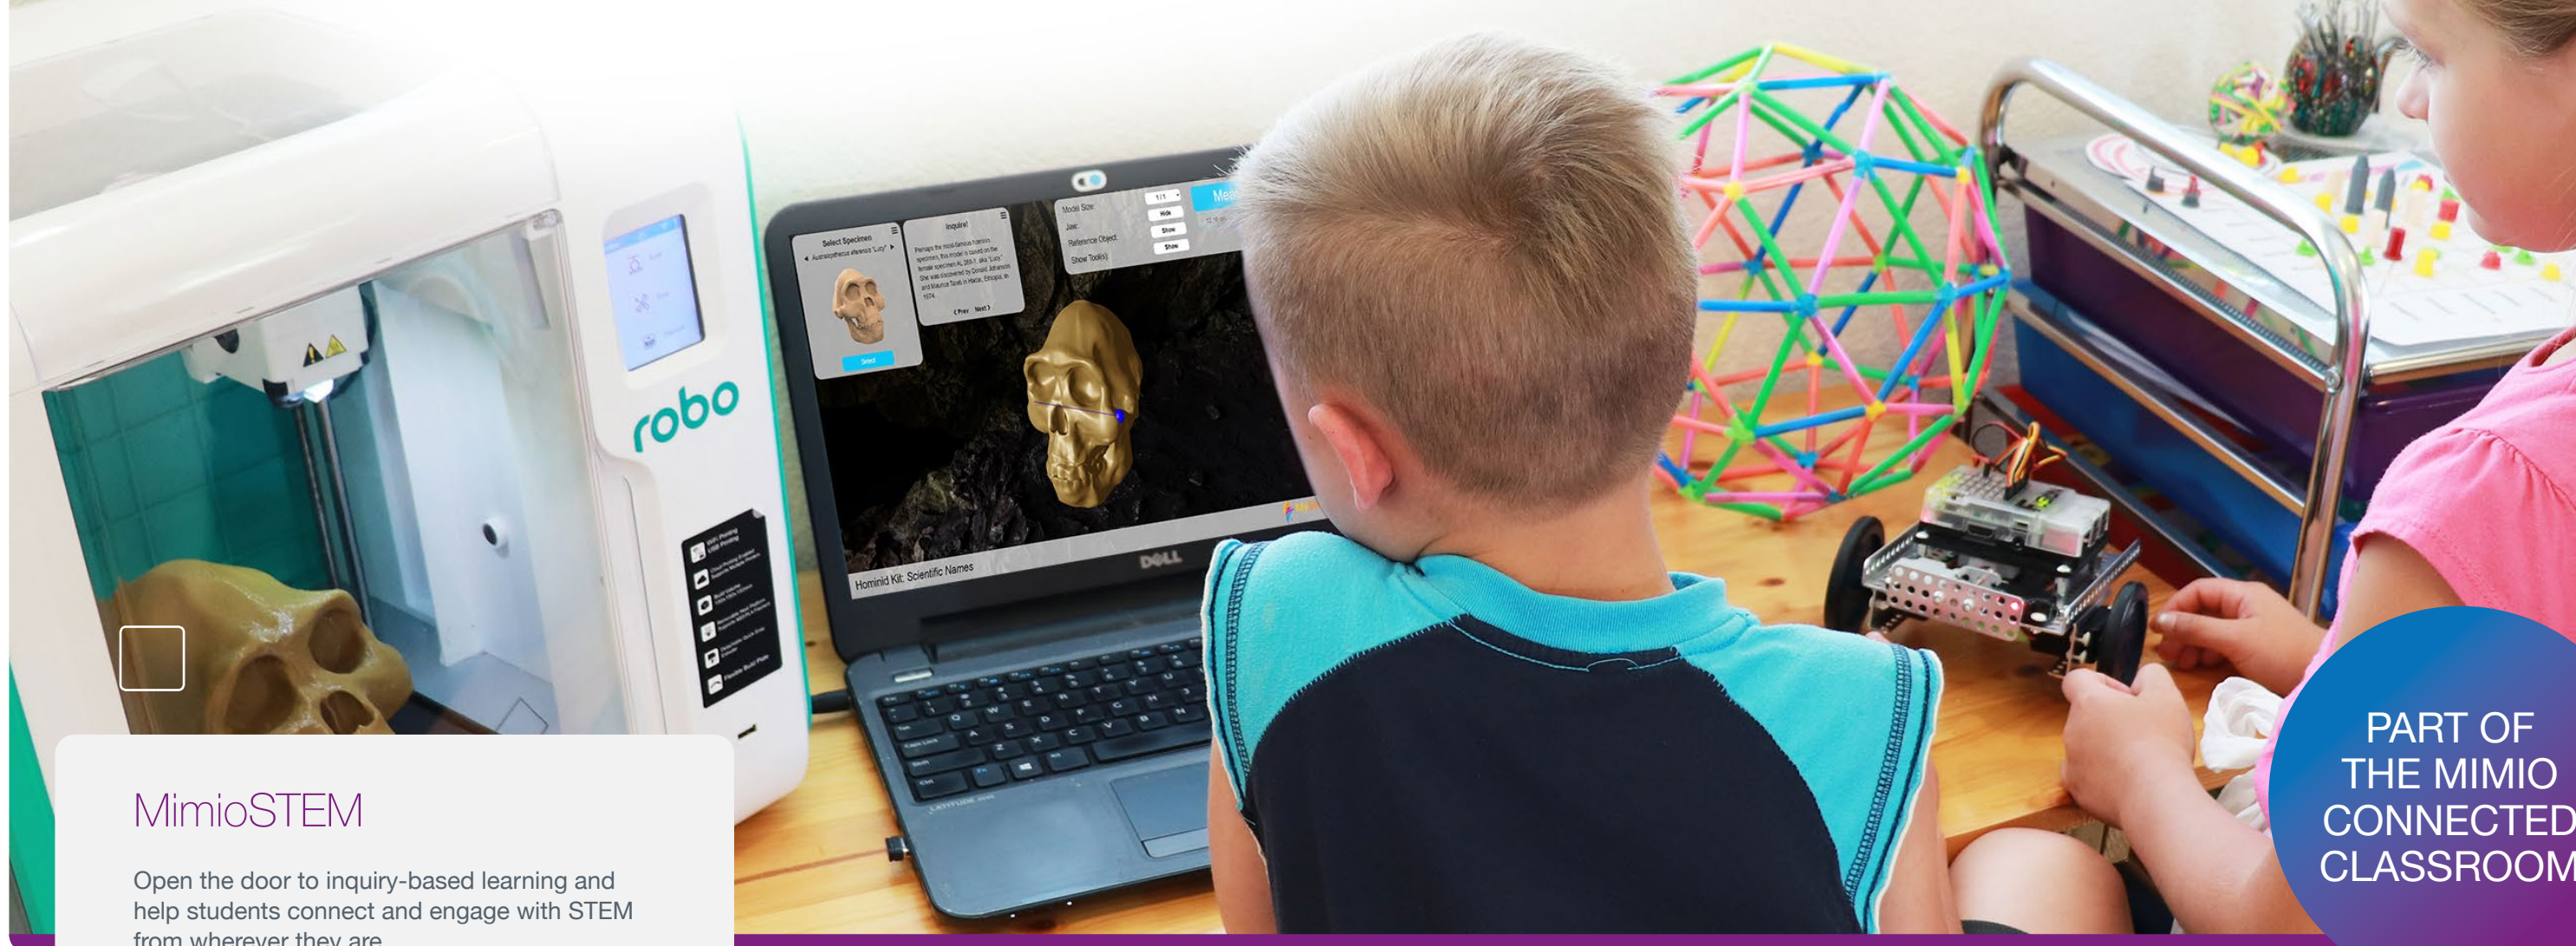

Apps for the Classroom

Receive a collection of software and apps that make teaching and learning more engaging.

20-Touch Point

Touch capabilities that help drive collaborative learning.

MimioSTEM

Open the door to inquiry-based learning and help students connect and engage with STEM from wherever they are.

The key to students' success is not only to learn science, technology, engineering, and math but also to understand how those disciplines apply to the world around them. We have compiled solutions and resources to help you easily and effectively bring STEM learning to your classroom.

We offer the most robust integrated STEM solutions. Each product comes with MyStemKits, hundreds of standards-driven K12 STEM lesson plans.

"The MyStemKits teaching tools are all 3D printed and the students love it - that hooks them!"

- Bob Wallace, high school biology teacher

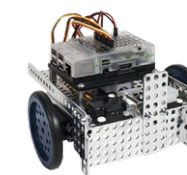

All STEM curriculum is available at MyStemKits.com.

Robo 3D Printers

Built for education: safe, smart, and simple. Bringing 3D printing into schools, classrooms, and maker-spaces has never been easier.

Educational Robotics System

Launch robotics in your classroom without any of the common obstacles. With the innovative Mimio MyBot system, robotics and coding can be taught simply and easily. Ready. Set. Build!

Robotic and Space Bundles

Explore the Moon and Mars while developing core skills in programming, engineering, and robotics.

Labdisc Portable STEM Lab

A science lab that can go anywhere, without complicated experiment setup. Open the door to inquiry-based learning in a variety of science fields, including biology, chemistry, physics, environmental science, and geography.

Professional Development

EOS Education provides training solutions to ensure technology integration, increased efficiency and effectiveness, and improved outcomes. We extend our commitment to schools and districts and all adult learners by providing a rich portfolio of training, professional development, and certification services. Contact us to get the most out of your training and PD budget through our customized programs that put the learner first.

Certifications

We provide certifications for MimioStudio™, and OKTOPUS software, Labdisc portable STEM lab, and Microsoft Innovative Educators.

Custom Programs

Our programs are built using a competency-based approach and customized to meet the unique needs of a district or school.

Virtual and In-Person

Our team of training professionals spans across the country. Each of our trainers has previous in-classroom experience and shares a passion for supporting teachers.

We offer dozens of topics that help teachers integrate specific technology tools with instructional practices.

PART OF
THE MIMIO
CONNECTED
CLASSROOM

Better Communications Means Better Results

FrontRow audio solutions help schools overcome many different communication challenges with simple-to-use solutions that offer long-term savings and are proven to be effective in study after study.

- **Build Successful Schools**
Our audio, video, and communication solutions help create successful schools by streamlining notifications and announcements.
- **Easily Manage Communication**
Manage all of your systems with our network-based platform including intercom, paging, bells, mass notification, classroom sound, lesson sharing, and AV control.
- **Amplify Content for Better Understanding**
Every student will have the acoustical advantage associated with close proximity to the teacher.

PART OF THE MIMIO CONNECTED CLASSROOM

FrontRow Solutions

Effortless communication in rooms, outdoors, school-wide, and virtual environments.

ezRoom

ezRoom Trio offers an all-in-one solution with a built-in speaker array that is simple to install and acts as in-class endpoint for bells, intercom, paging, emergency notification and more.

Juno

The network connected, all-in-one line array tower solution that amplifies voices and acts as in-class endpoint for bells, intercom, paging, emergency notification and more.

Conductor Admin Station

The robust IP-based control and school communications solution that offers campus-wide bells paging, intercom, and emergency notification.

Lyrik

A portable wireless sound solution that broadcasts instruction where you need it. Connect Lyrik to a computer for audio playback, blended learning, or lesson capturing.

ELEVATE

Our latest advanced wireless communication technology that not only provides natural voice tone and clarity, but also knows your homeroom!

Smart IR

Infrared Wireless Microphones are more powerful than ever with amazing room coverage so students are sure to be heard no matter where the teacher is standing.

Ask about Attention!

Help students and teachers stay in sync by turning the MimioPro 4 interactive panel into a video message board.

Benefits

Keep Using Your Favorite Lessons

Open a variety of 3rd-party lessons, including SMART Notebook, FlipCharts, and much more.

Formative Assessments

Quickly gauge student understanding with polling.

Many Options

We offer a variety of apps that make daily tasks easier.

Instant Grading & Reporting

Capture responses and export results to gradebooks.

Set User Preferences

Pick and choose what apps work best for your school.

Quick Access

Students can quickly access notes or live sessions via QR Codes.

Networked Device Management System

NDMS is cloud-based software that gives you the ability to control and report on the operation of MimioPro 4 displays through one easy-to-use portal via your web browser. Manage usage, groups, panel location, updates, and more through one system.

CleverLive

Rich cloud content management platform that turns your display into a communication tool. Broadcast messages, alerts, and important information to students, staff, and visitors. Simply create an online account. Add your logo and brand colors. Then send dynamic messages to your screens instantly.

Support You Can Count On

We know how important it is to feel confident in the tools you use every day, so we make sure you can count on our products and services. We offer US-based in-house, dedicated product specialists. Email customer care@boxlight.com or call us 1.866.972.1549. We will be there to support you 24/7/365.

Increase Student Engagement!

The future of learning is now at your fingertips. Seamlessly integrate technology into the classroom with quick access to a collection of educational apps designed to make teaching easier and learning more fun.

MyClass Student Engagement Platform

Enhance student engagement and support instruction inside and outside the classroom with interactive content, real-time formative assessments, gamification, and classroom rewards.

CleverShare

Stream and display any combination of up to 9 mobile devices.

CleverStore

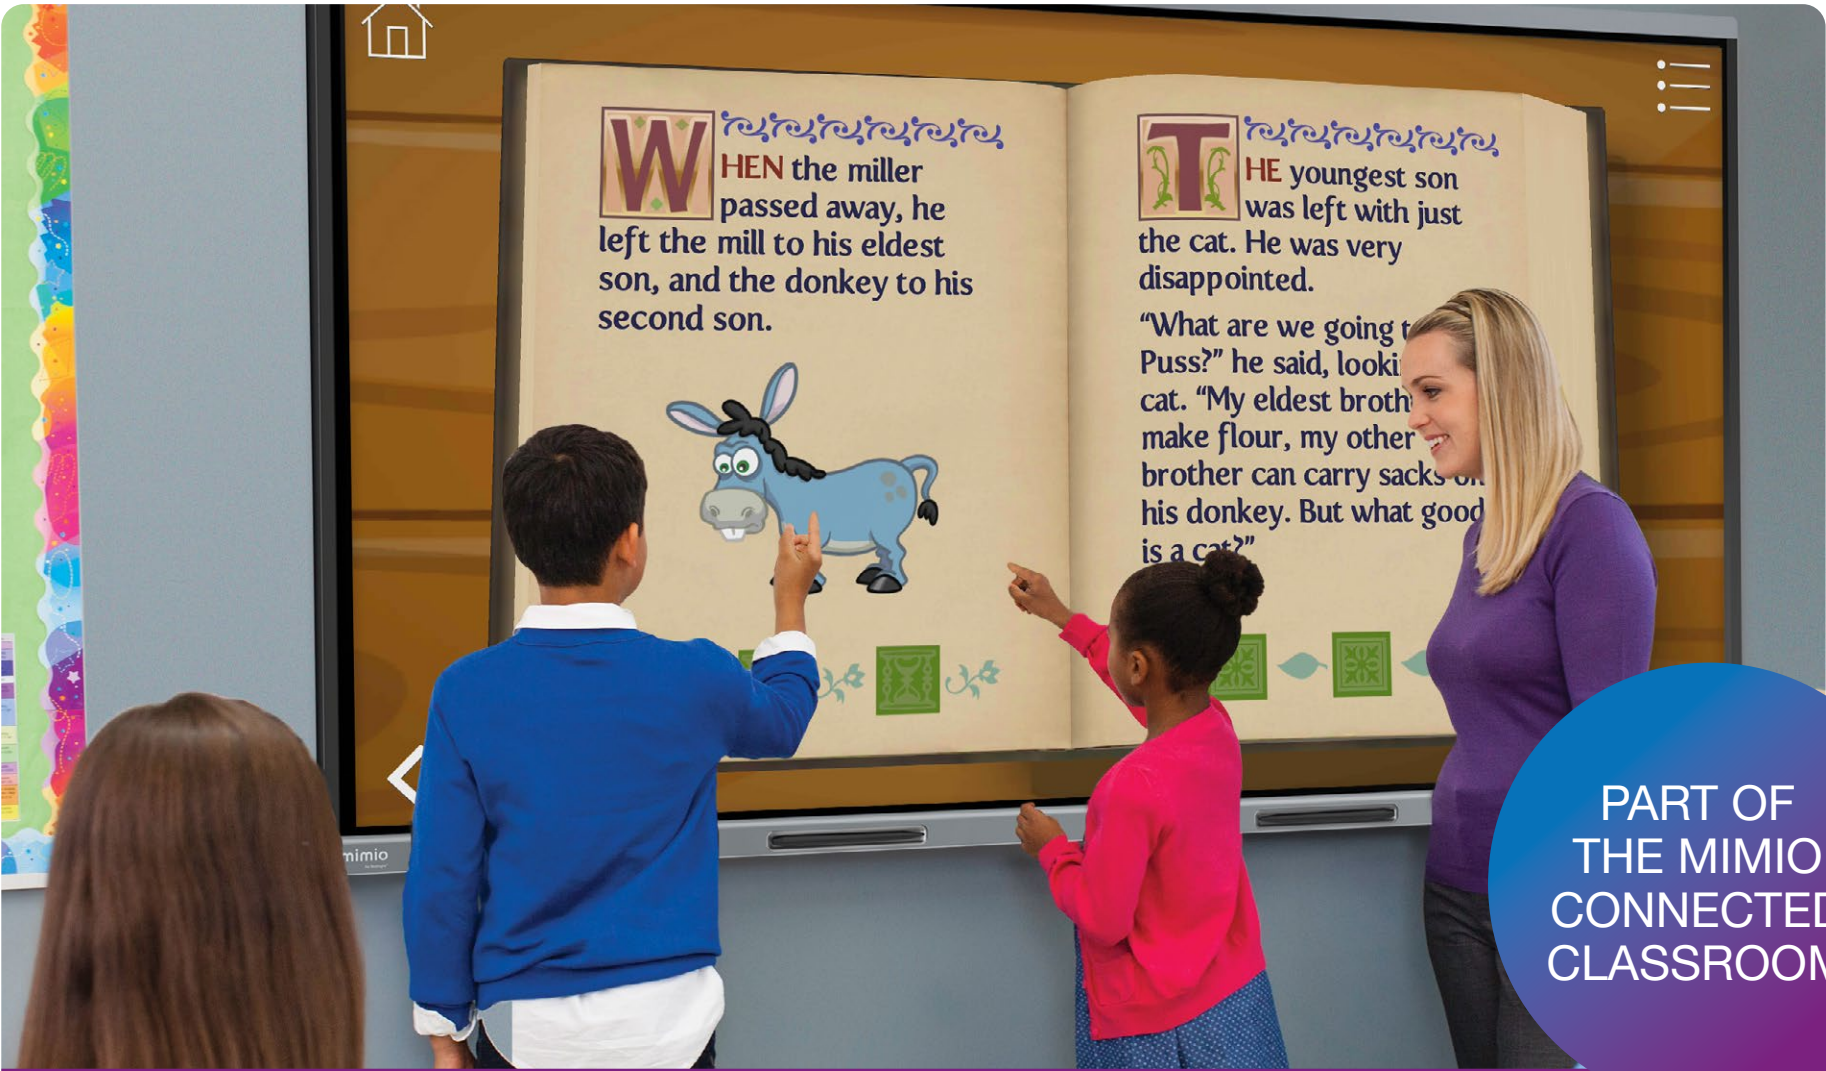

Access over 200 safe, educational apps that support Common Core State Standards. Choose from Coding to Math, Literacy and Science, as well as games and stories.

LYNX Whiteboard

With teacher favorites such as Rainbow Pen and Spotlight as well as interactive learning tools, LYNX is packed with features to make lessons flow.

K12 Lesson Library

Start using **MyClass** right away with any of our premade K12 Math, Reading, Science, History, and Social Studies lessons. Our digital libraries offer thousands of activities, lessons, and assessments designed specifically for interactive touch displays.

PART OF THE MIMIO CONNECTED CLASSROOM

Create Your Perfect Classroom!

The Mimio Connected Classroom empowers teachers and students to go beyond the traditional.

Choose from our suite of solutions designed for a holistic approach to teaching and learning. Explore what the classroom can be through customizable plug-and-play technologies, award-winning course designs, and data-driven assessments.

Cloud Management
Manage usage, groups, panel location, updates, and more.

MimioSTEM
Open the door to inquiry-based learning with 3D Printers, Robotics, and Portable Labs.

K12 Lessons
Our digital libraries offer thousands of activities, lessons, and assessments designed specifically for interactive touch displays.

CleverStore
Choose from hundreds of free educational apps.

CleverShare
Let students demonstrate understanding with screen sharing.

Lynx Whiteboard Tools
Enhance teaching and learning with interactive tools.

Audio
Audio, video, and communication solutions that help create successful classrooms.
