Wireless indicator

MimioTeach

If status button is amber:

1. Make sure MimioHub™ wireless receiver is connected to computer.
2. Open MimioStudio > Tools > Settings. Choose Classroom Devices.
3. MimioHub receiver should be listed as "Connected." If not, move it to an active USB port.
4. On the MimioTeach™ device, press and hold down the power/status button for 5-10 seconds, until it begins to blink.
5. Status button will flash amber, and the MimioTeach device should appear in the list of available Classroom Devices.
6. Select "MimioTeach" and click "Connect." Status button should be solid green.

MimioHub

Status button / Power

MimioVote

If status button is amber:

1. Use the same MimioHub receiver to connect BOTH your MimioTeach device (if available) and the MimioVote™ assessment.
2. Open MimioStudio > Tools > Settings. Choose Classroom Devices.
3. MimioHub receiver should be listed as “Connected.” If not, move it to an active USB port.
4. On the MimioVote charging tray, press and hold down the status button for 5-10 seconds, until it begins to blink.
5. Status button will flash amber, and MimioVote device should appear in the list of available Classroom Devices.
6. Select “MimioVote” and click “Connect.” Status button should be solid green.

Status button

MimioPad (1st generation)

If 000 is blinking on the MimioPad display:

1. Plug USB receiver into computer.
2. Make sure MimioPad™ device is powered on.
3. On the USB receiver, press and hold the button until it begins flashing.
4. On the back of the MimioPad device, press the red button. The MimioPad display should show the unit number (not zero).
5. To connect multiple MimioPad devices, repeat the process for each MimioPad device.
