Whiteboard

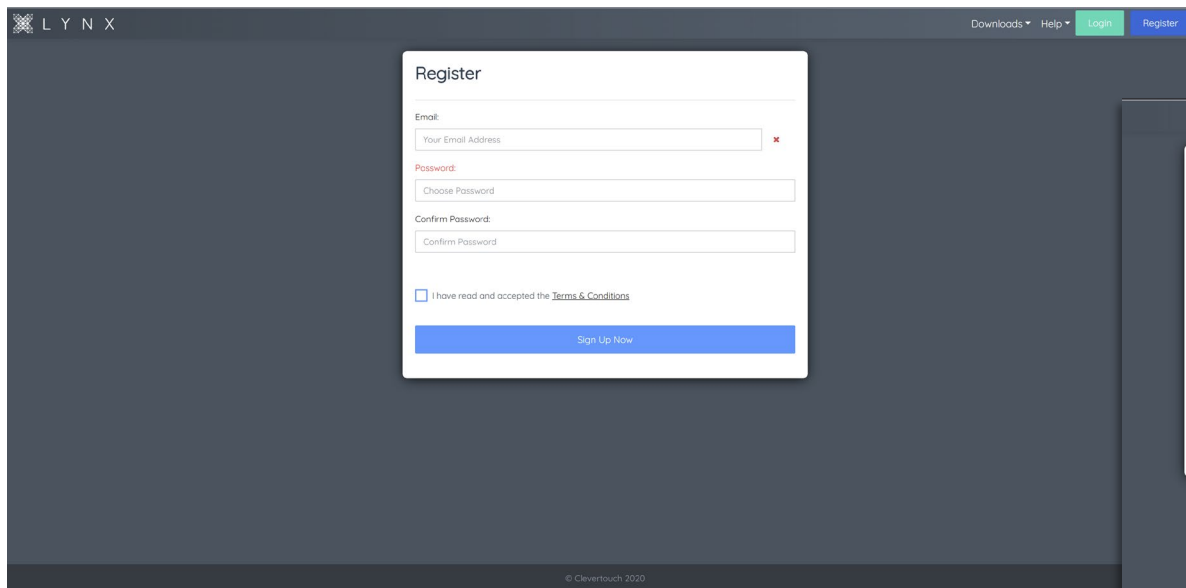

How to guide

Registration

Visit **lynxcloud.app**
Click Registration on the top right
and fill out the form

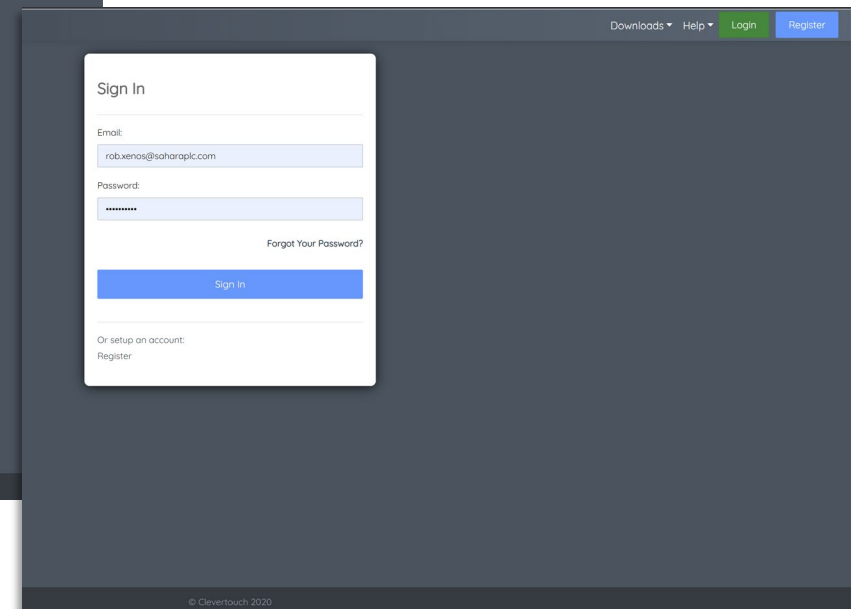

Sign in by clicking Log-in
on the top right and
filling in the form

The screenshot shows the Lynxcloud registration form. The form is titled "Register" and is set against a dark grey background. It includes the following fields and elements:

- Email:** A text input field with the placeholder "Your Email Address" and a red asterisk indicating a required field.
- Password:** A text input field with the placeholder "Choose Password".
- Confirm Password:** A text input field with the placeholder "Confirm Password".
- Terms & Conditions:** A checkbox labeled "I have read and accepted the [Terms & Conditions](#)".
- Sign Up Now:** A blue button at the bottom of the form.

The top navigation bar of the application is visible, showing "Downloads", "Help", "Login", and "Register" (highlighted in green).

The screenshot shows the Lynxcloud sign-in form. The form is titled "Sign In" and is set against a dark grey background. It includes the following fields and elements:

- Email:** A text input field containing the email address "rob.xenos@saharapl.com".
- Password:** A text input field with masked characters "*****".
- Forgot Your Password?:** A link below the password field.
- Sign In:** A blue button at the bottom of the form.

Below the sign-in form, there is a section for account setup: "Or setup an account: Register".

The top navigation bar of the application is visible, showing "Downloads", "Help", "Login" (highlighted in green), and "Register".

Download Lynx Launcher

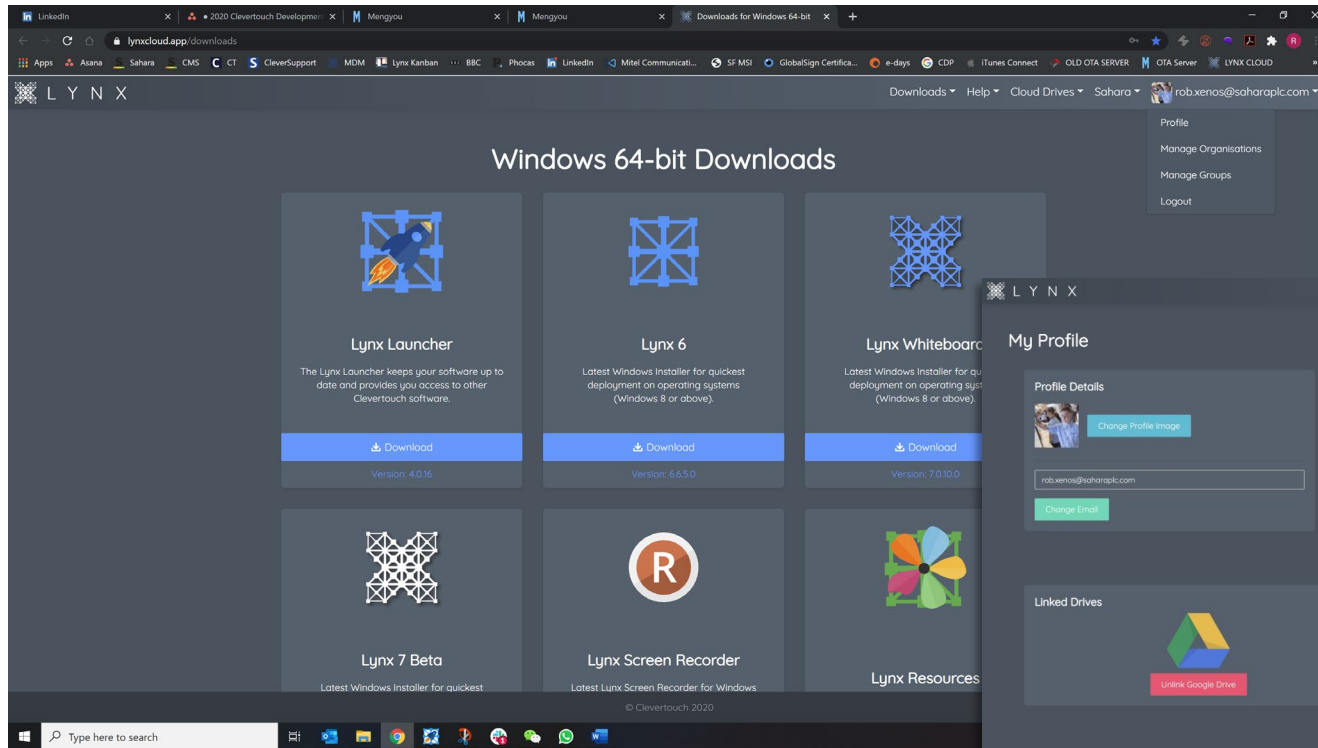

The screenshot shows the Lynx web interface with the following content:

- Header: L Y N X | Downloads | Help | Cloud Drives | Sahara | rob.xenos@saharapl.com
- Section: Windows 64-bit Downloads
- Grid of download cards:
 - Lynx Launcher**: The Lynx Launcher keeps your software up to date and provides you access to other Clevertouch software. Version: 4.0.16. **Download** button.
 - Lynx 6**: Latest Windows Installer for quickest deployment on operating systems (Windows 8 or above). Version: 6.6.5.0. **Download** button.
 - Lynx Whiteboard**: Latest Windows Installer for quickest deployment on operating systems (Windows 8 or above). Version: 7.0.10.0. **Download** button.
 - Lynx 7 Beta**: Latest Windows Installer for quickest deployment on operating systems (Windows 8 or above).
 - Lynx Screen Recorder**: Latest Lynx Screen Recorder for Windows.
 - Lynx Resources**: A collection of resources.
- Footer: © Clevertouch 2020

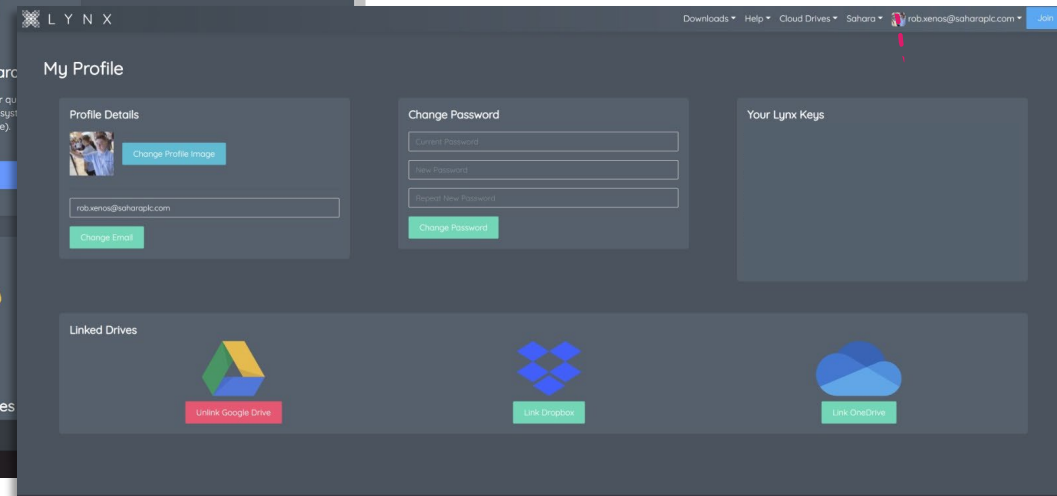

A pink speech bubble with the text "YES!" is overlaid on the left side of the screenshot, pointing to the "Download" button for the Lynx Launcher.

Once you are signed in please download the Lynx launcher. This will be where you can open Lynx, and other Clevertouch Software as well as manage updates.

The Lynxcloud.app website and its features

Profile

Under Profile you will be able to see your Lynx Keys (if upgrading from Lynx 6), change your account password, update your Gravatar and Link Various Cloud Drives

Manage Organisation

If you are a **designated Administrator** you will be able to create and manage your organisation

Update

On the top right click 'Add Organisation' and fill out the form to create your Organisation. Once you have created your Organisation you will be able to invite users, set them as administrators and update software on their behalf

Manage Groups

Here you can create Groups to send lessons and content to.
At the top right click **'add group'**

The image shows two overlapping screenshots of the LYNX web application. The left screenshot displays the 'Manage Your Groups' page with a table of groups and an 'Add Group' button. A modal dialog is open, prompting the user to enter a new group name, with 'Example Group' entered in the text field. The right screenshot shows the 'Manage Group Example Group' page, which has a table for adding email addresses. A modal dialog is open, prompting the user to enter an email address to assign to the group, with 'rob.wenos@saharapl.com' entered. A pink speech bubble containing the text 'ABC' is positioned above the right screenshot. A dashed pink arrow points from the bottom of the left screenshot towards the bottom of the right screenshot. The LYNX logo is visible in the top left of both screenshots, and the user's profile 'rob.wenos@saharapl.com' is visible in the top right.

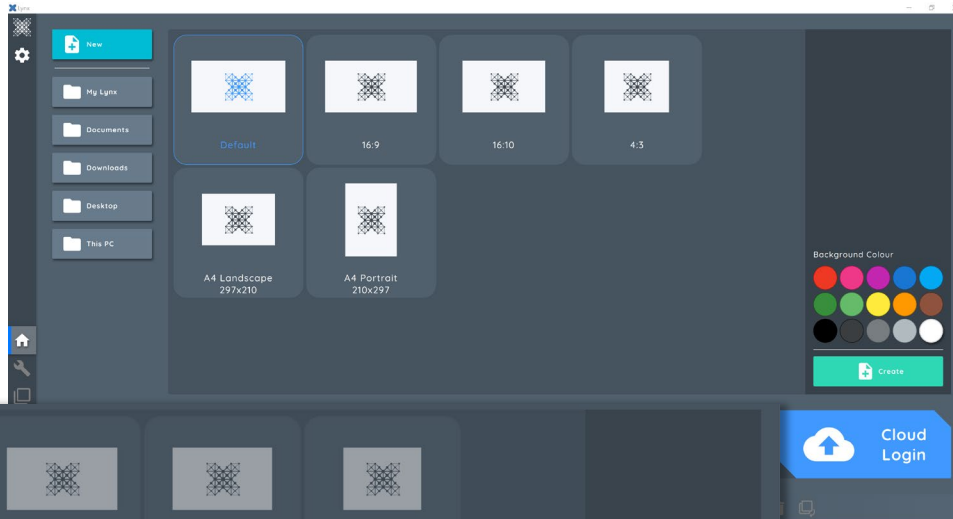

From here you can **click on your group** and add email addresses to it

Linking Cloud Drives

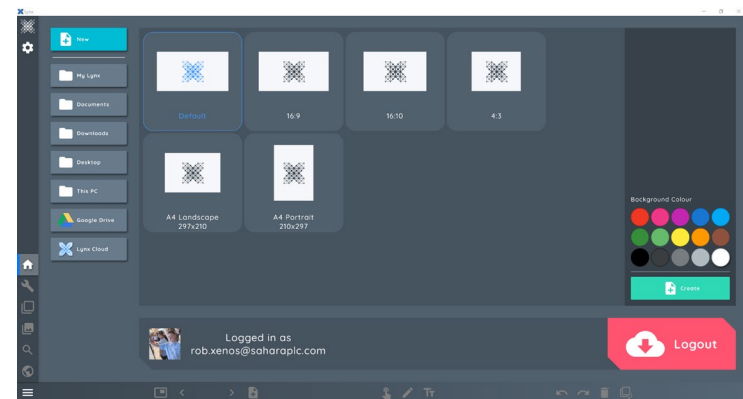

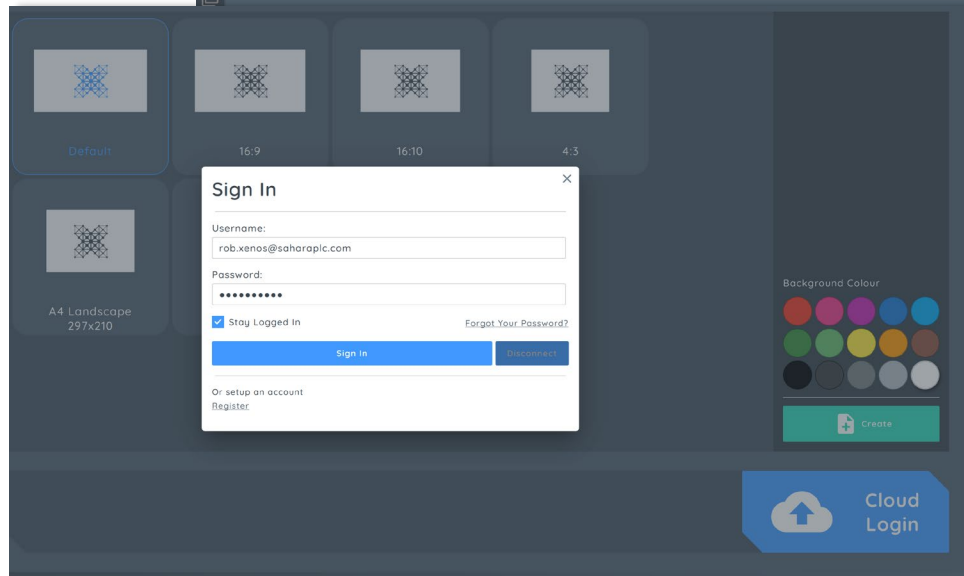

Here you can link **Google Drive**, **OneDrive** and **Dropbox** as well as access your own personal Lynx cloud that is created for you after you create your Lynx Account. **Click cloud drives** and pick the cloud drive type you wish to connect. **Follow the on-screen instructions to add your chosen cloud drive.** Once this is complete you will see content and folders from within that drive.

The image displays two overlapping screenshots of the Lynx web interface. The top-left screenshot shows the 'Link Your Google Drive To Continue' screen. It features the Google Drive logo and a blue 'Link Google Drive' button. A message box above the logo states: 'We need to link to your Google Drive account, this will take you to an external login screen to authorise your Google Drive for use within Lynx. Please view our [Privacy Policy](#) for information on data we collect.' The top-right screenshot shows the 'Google Drive' interface with a grid of folders and files. A pink gear icon is overlaid on the top right of this screenshot. A pink speech bubble with an exclamation mark is located at the bottom left of the overall image. The Lynx logo is visible in the top left of both screenshots, and the user's email 'rob.xenos@saharapl.com' is in the top right.

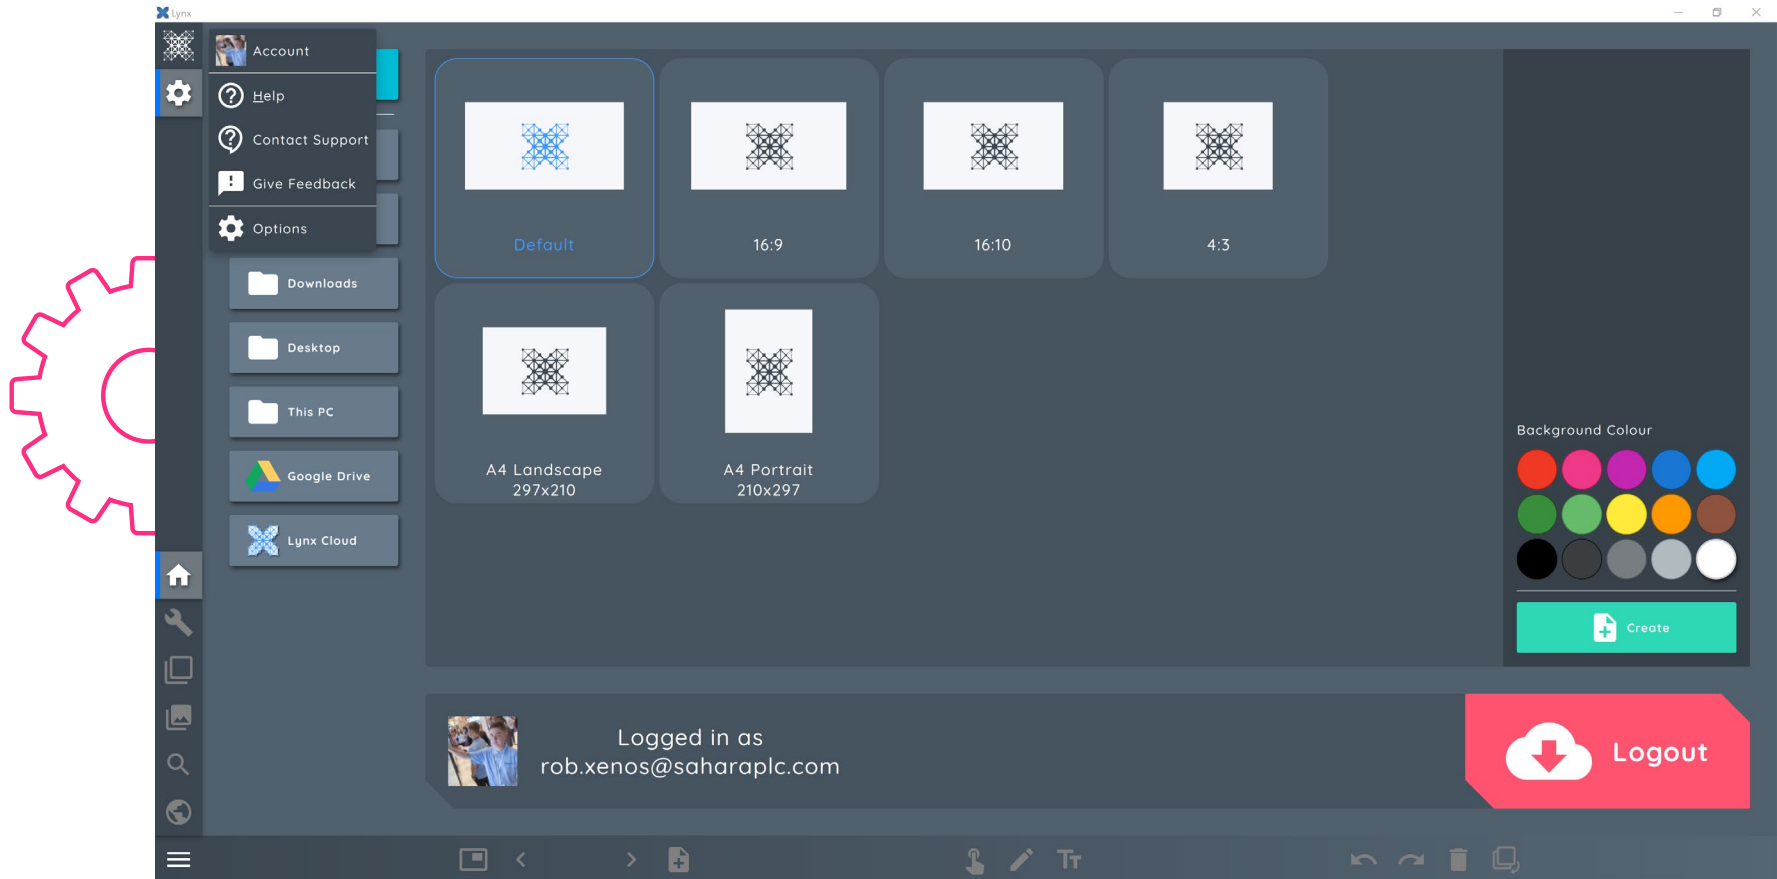

Opening Lynx Whiteboard for the first time

When you open Lynx Whiteboard you will see a 'Cloud Login' button on the bottom left and then fill in your details / press sign in. If you have not created an account yet – please visit lynxcloud.app to register.

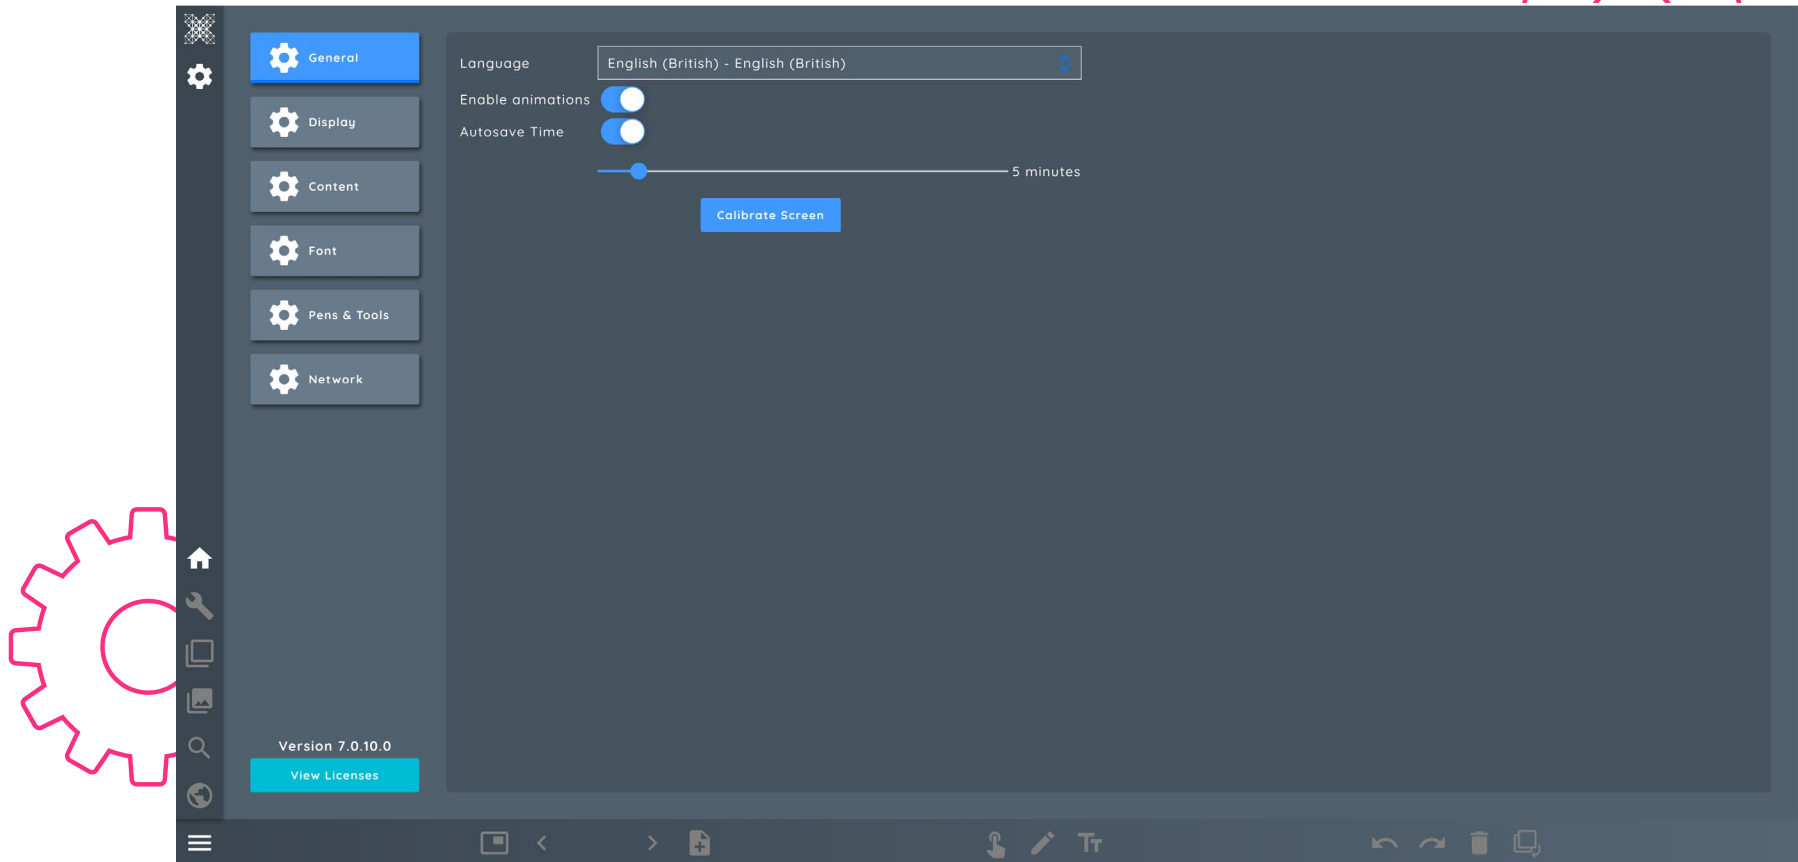

Accessing Settings

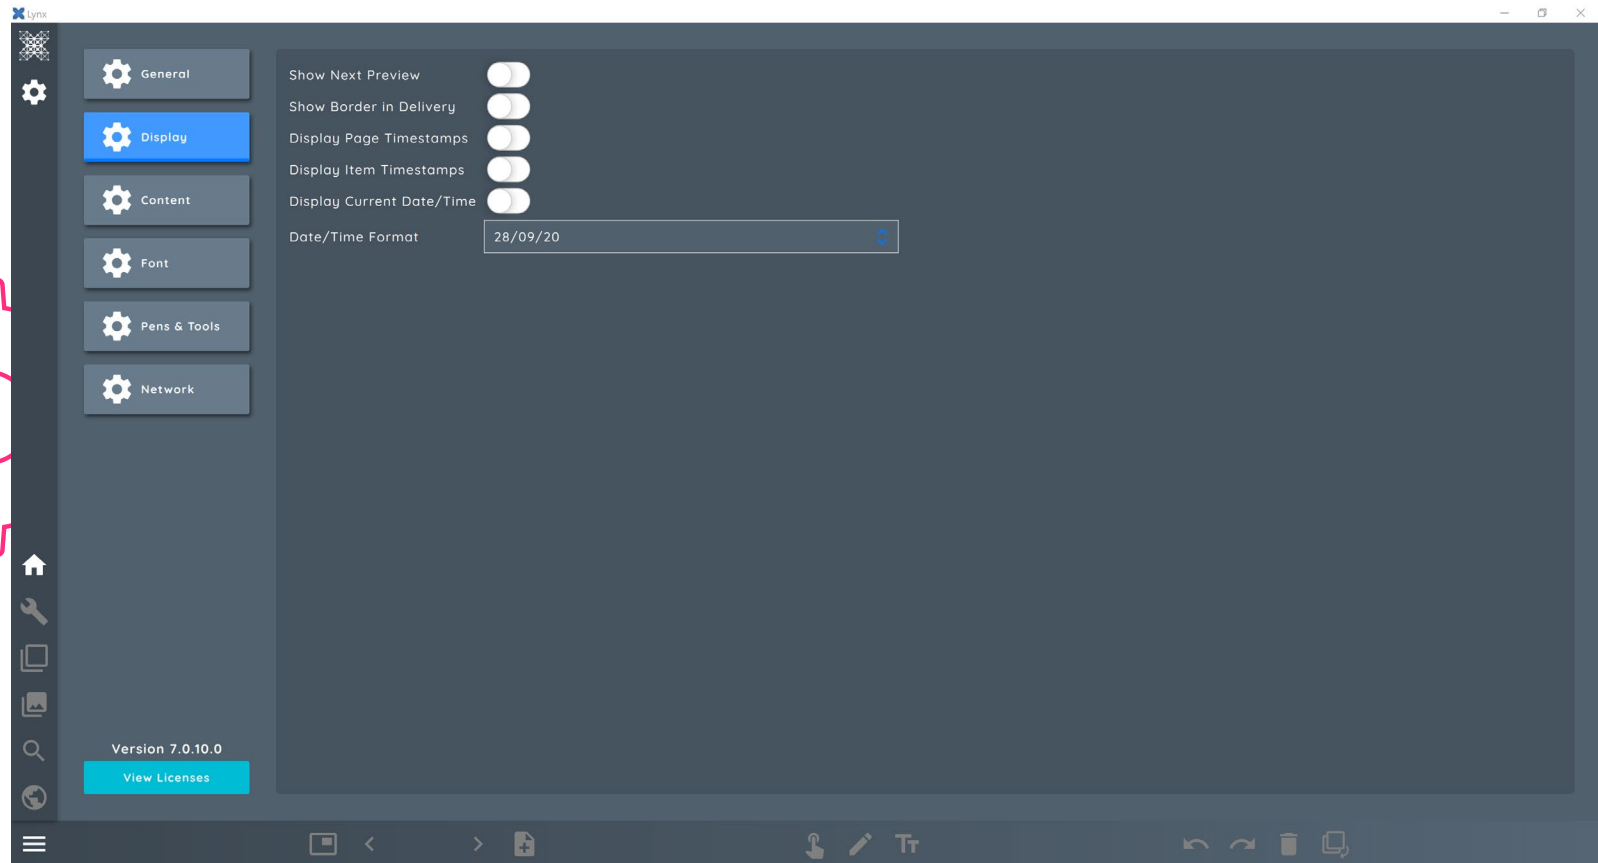

Via this menu you can access help, **Contact Support**, **Give Feedback**, or **access Options (settings)**

Options > General

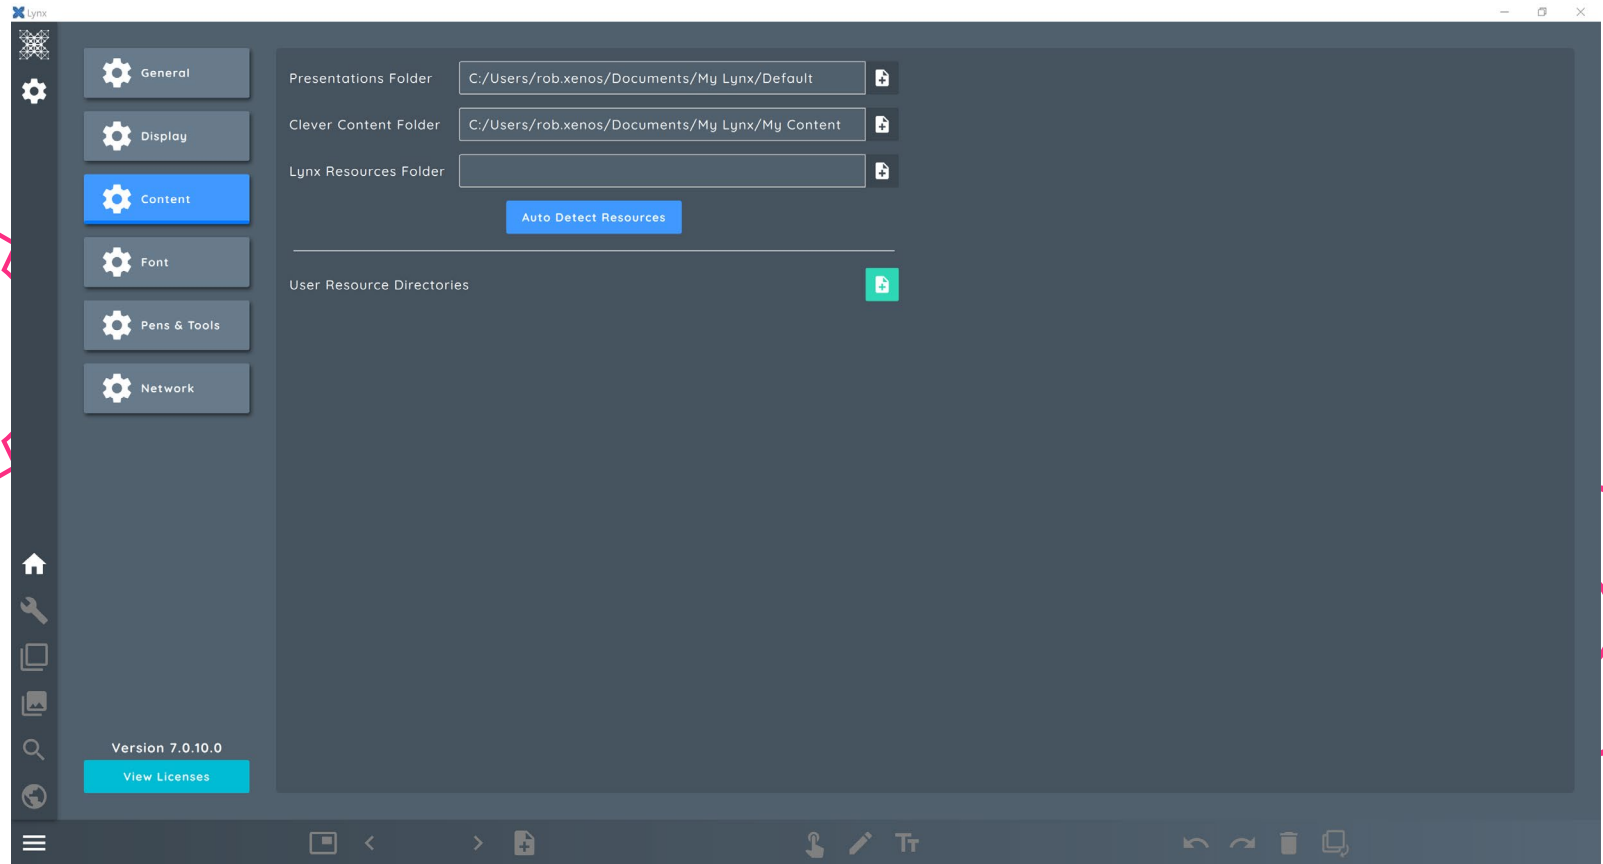

In General, you can **Set your Language**, **Enable animations**, and adjust your **autosave time**. You can also **Calibrate** your screen.

Options > Display

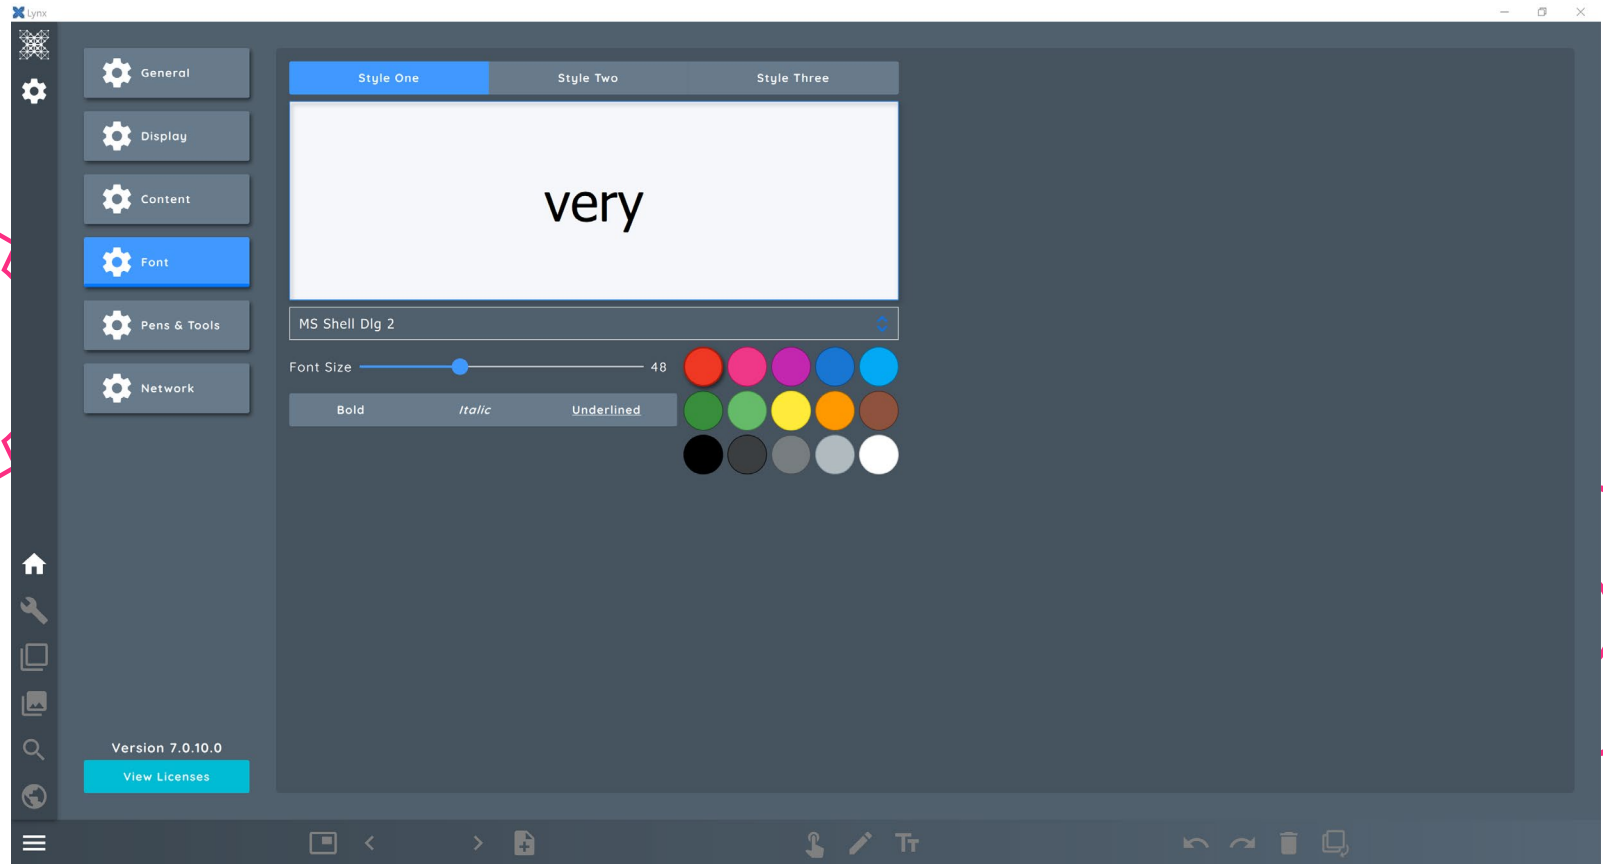

In Display you can **set various time** and **date stamps**, as well as **date/time format**

Options > Content

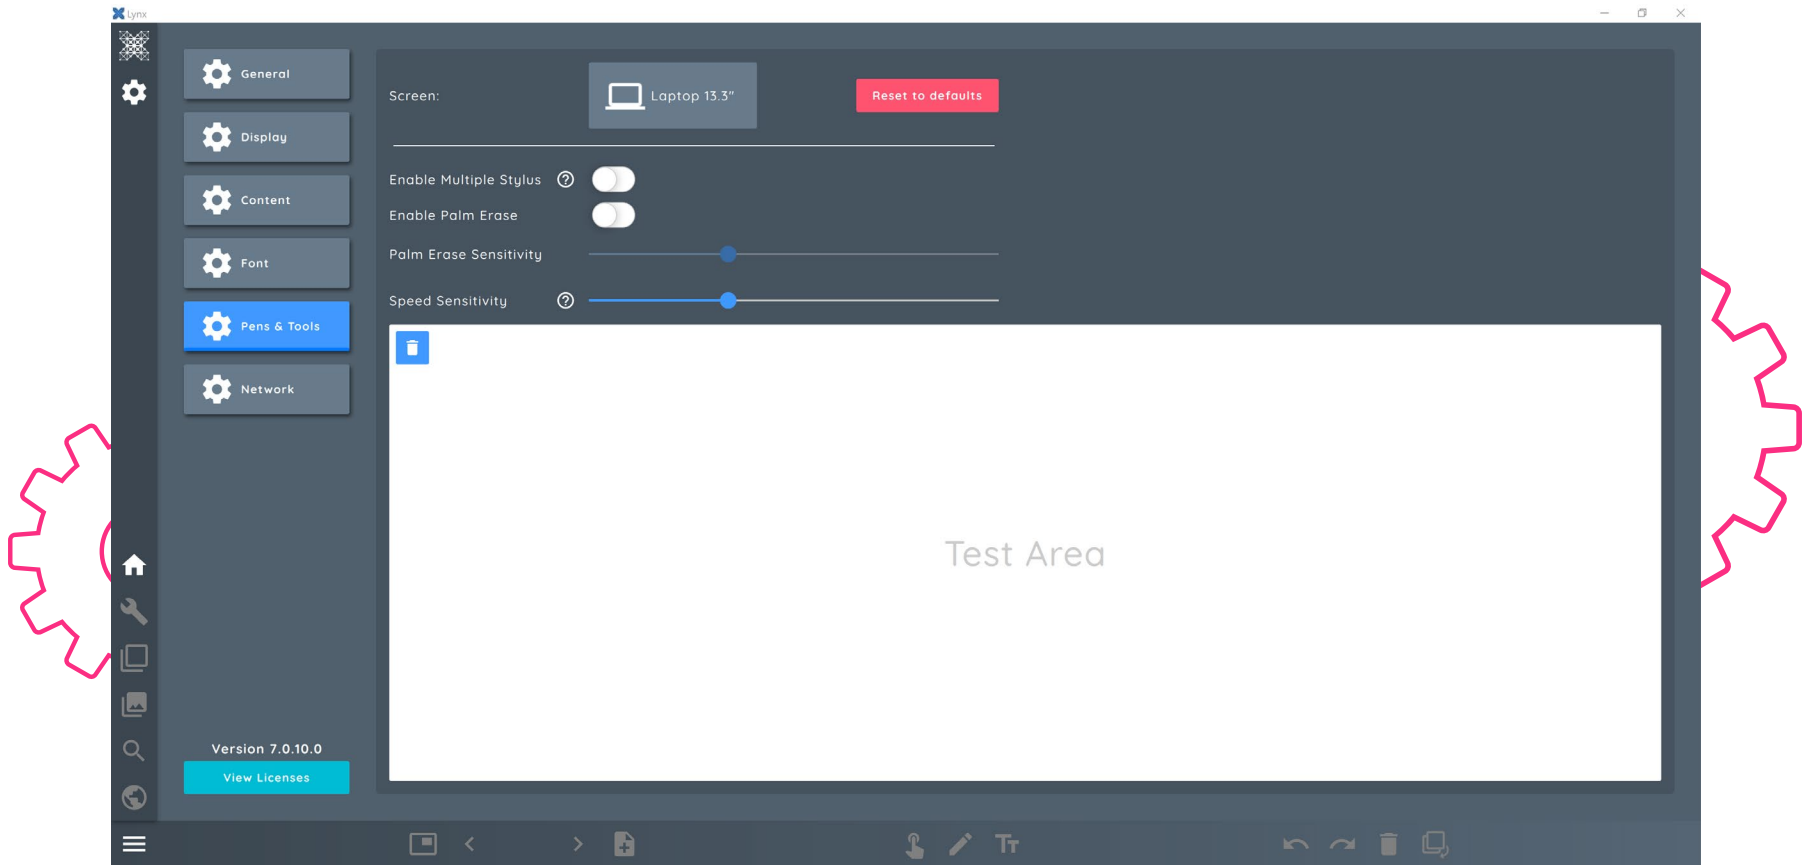

Here you will be able to **map custom resource** and **content folders**

Options > Font

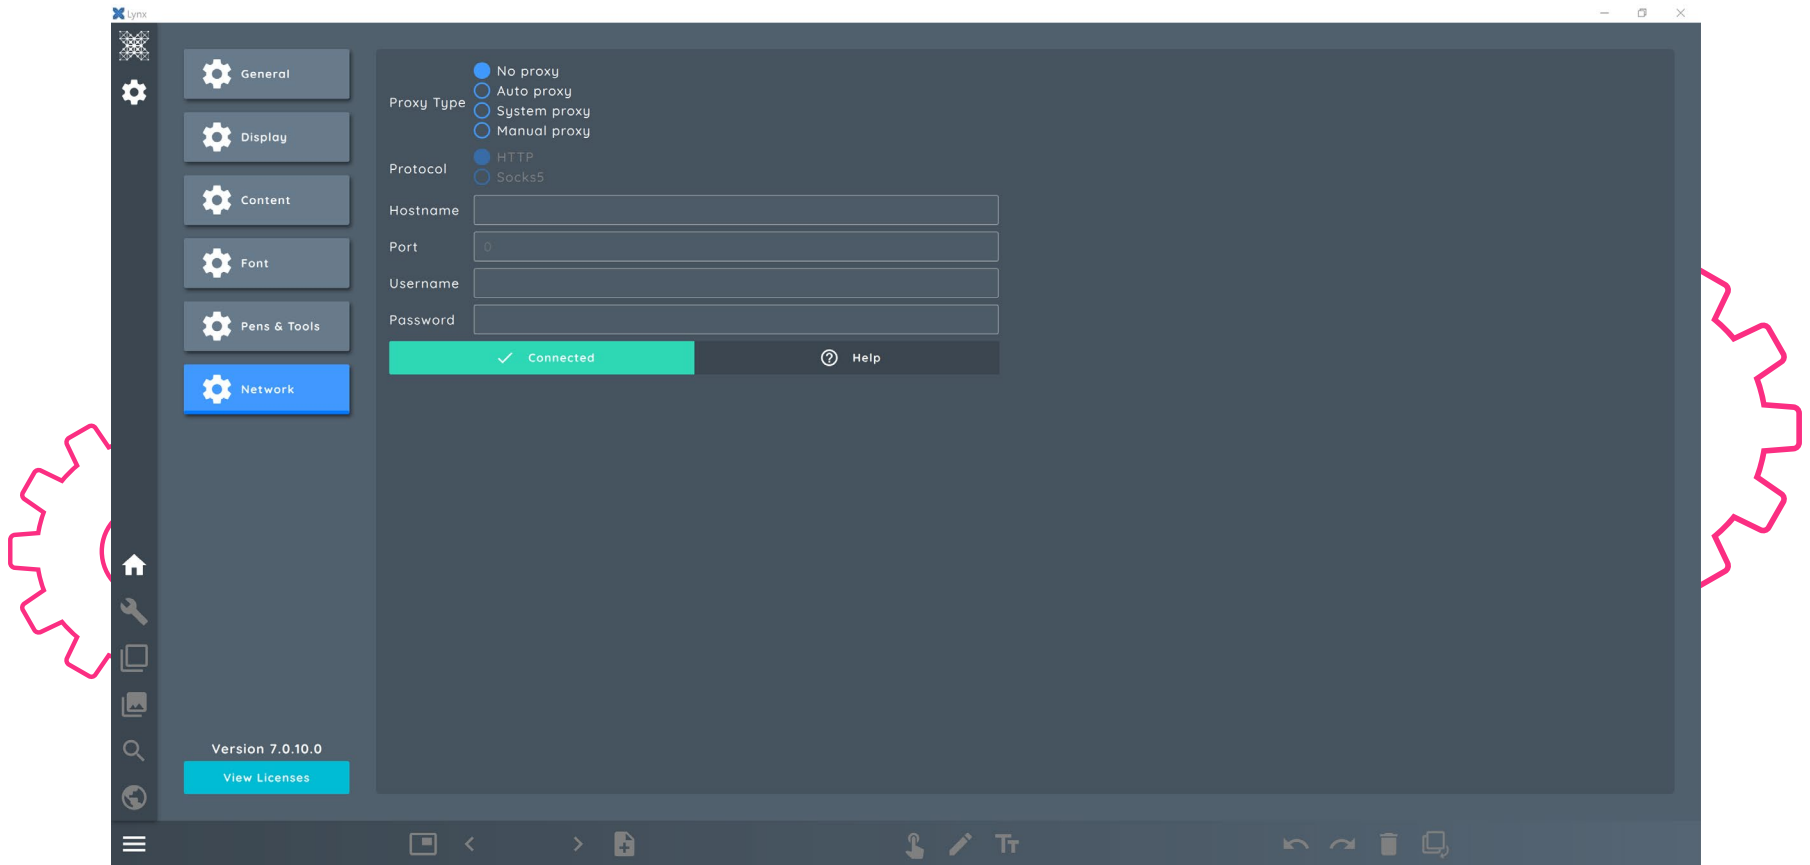

Here you can pick **3 custom styles** that will be available to you at all times

Options > Pens & Tools

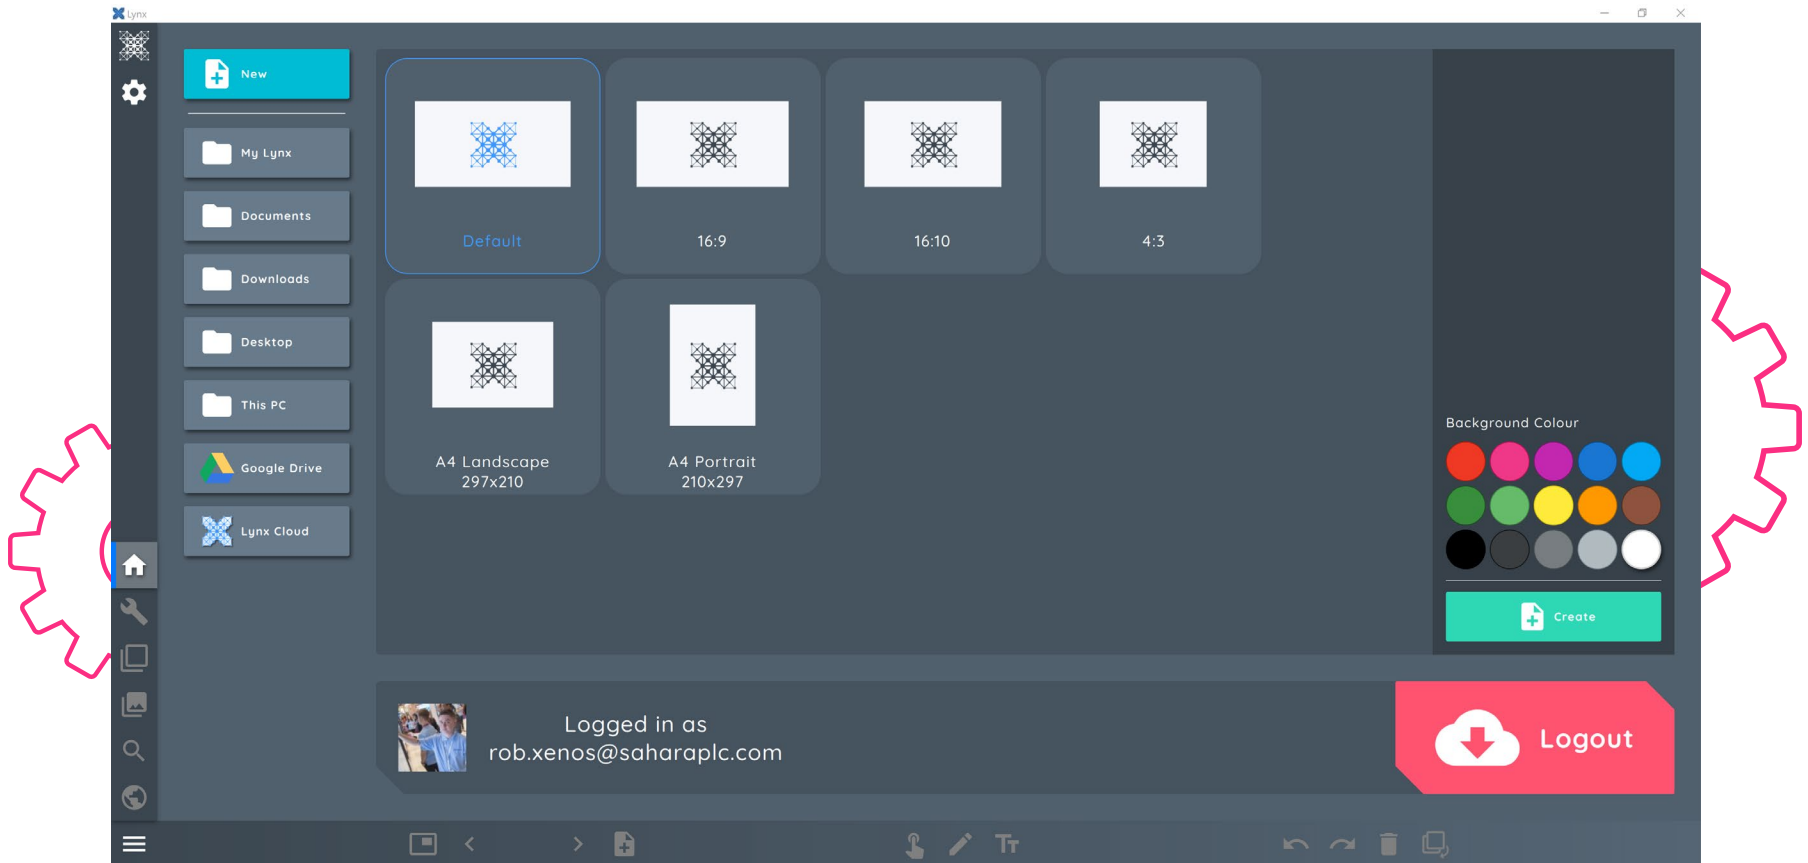

In Pens and Tools you will be able to set your **Display Type**, enable **stylus and palm options** and well as a **speed sensitivity** slider

Options > Network

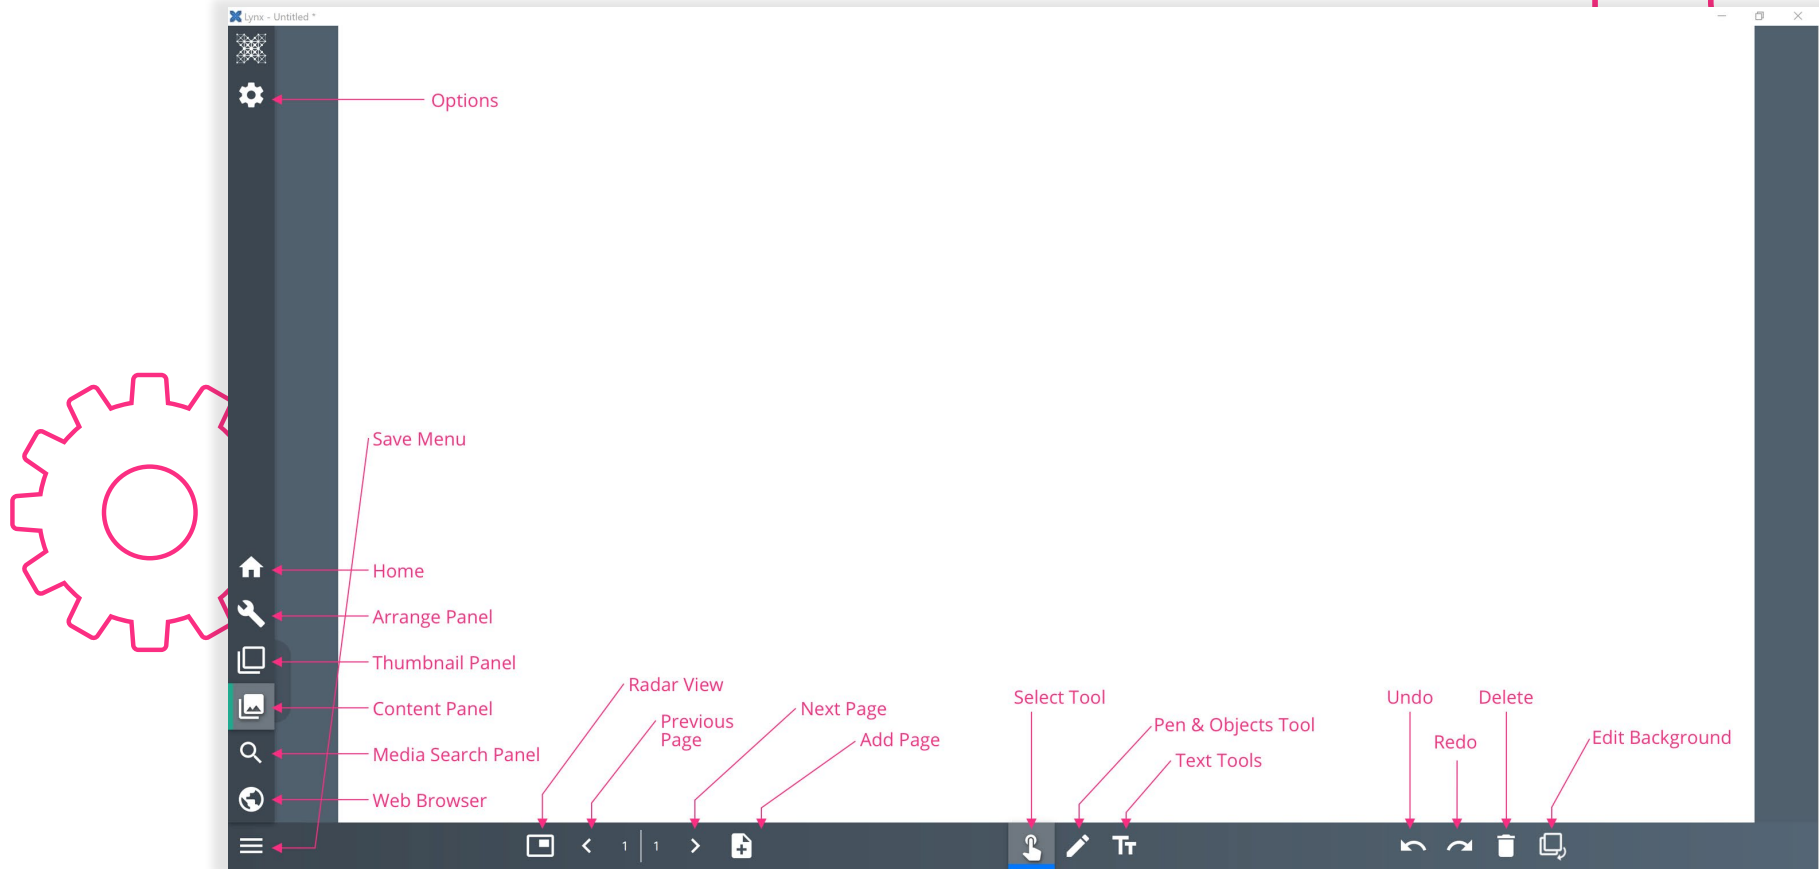

In **Network** you will be able to configure your network and Proxy settings

Creating a Lesson

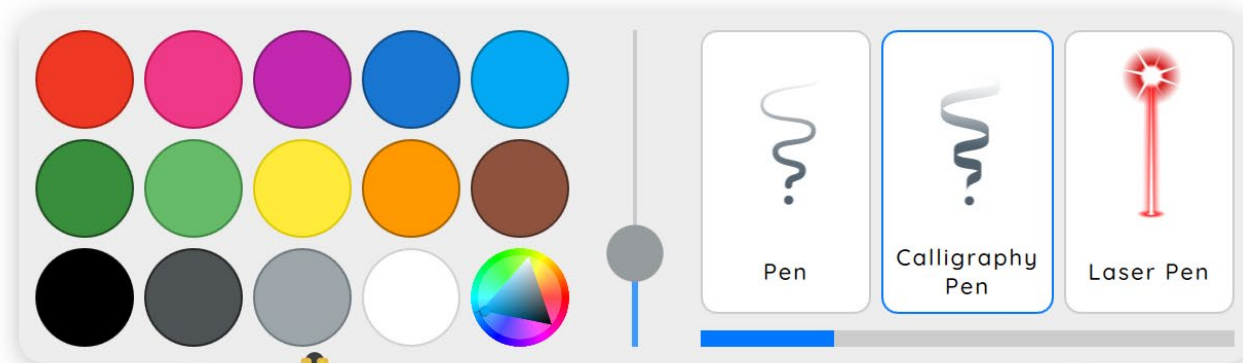

To create a new lesson first select your canvas size, background colour, and then click create.

Icon Guide

Pens & Art Tools

1. Select the pencil icon
2. Choose your **pen type**, and click on it to choose the **colour, style, thickness** and **opacity**

Text Tool

1. Select the Text icon
2. There are **three styles** to choose from
3. You can change these by pressing the **settings** icon
4. Click the blue square around your text box to **duplicate**, **arrange** or **transform**
5. Click the green circle around your text box to **rotate**

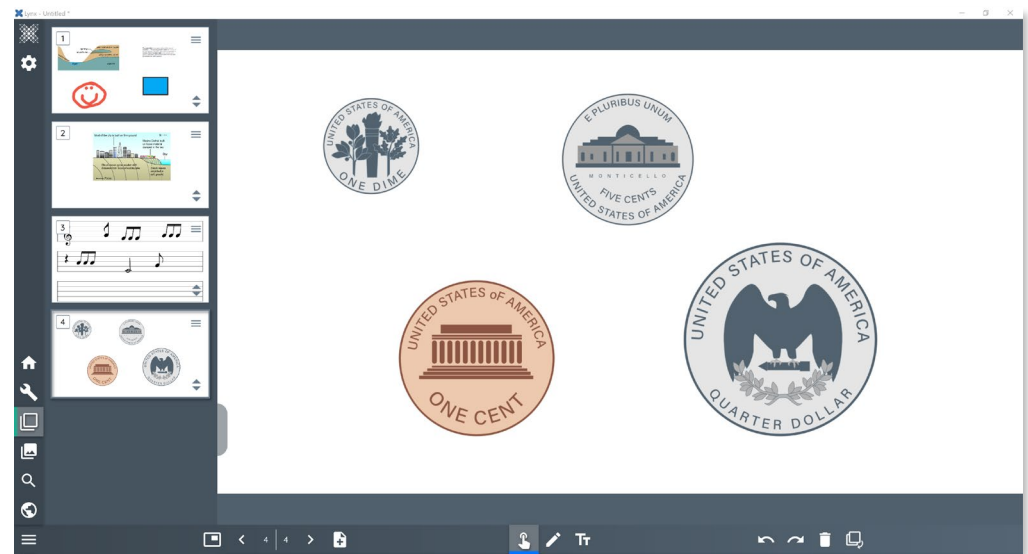

The Thumbnails Panel

The Thumbnails Panel allows you to **preview** thumbnails of each slide and quickly navigate to them.

You can also click the **menu icon** in the top right-hand corner of every thumbnail to access the **slide settings** where you can **reorder** and much more.

The Arrange Panel

The arrange panel is where you can manipulate objects that are within the Lynx Whiteboard. Below are some examples of options.

Images – when you have an image inside your Lynx whiteboard you will be able to set orientation, Opacity, 3D settings, as well as cloning and grouping settings

Text – when you select a text box you will be able to fine tune text settings, grouping, and replication settings.

Annotations and drawings – when a drawing is selected you can manipulate its Colour, line thickness, opacity as well as the usual grouping and replication settings.

Shapes – when a shape is selected you will be able to change borders, fills, opacity as well as the usual grouping and replication settings

My Content

In the Content Panel you can select from a **wide range of pre-created content**, as well as content from your own mapped folders.

Drag the content from the Content Panel over into your whiteboard canvas.

The Media Search Panel

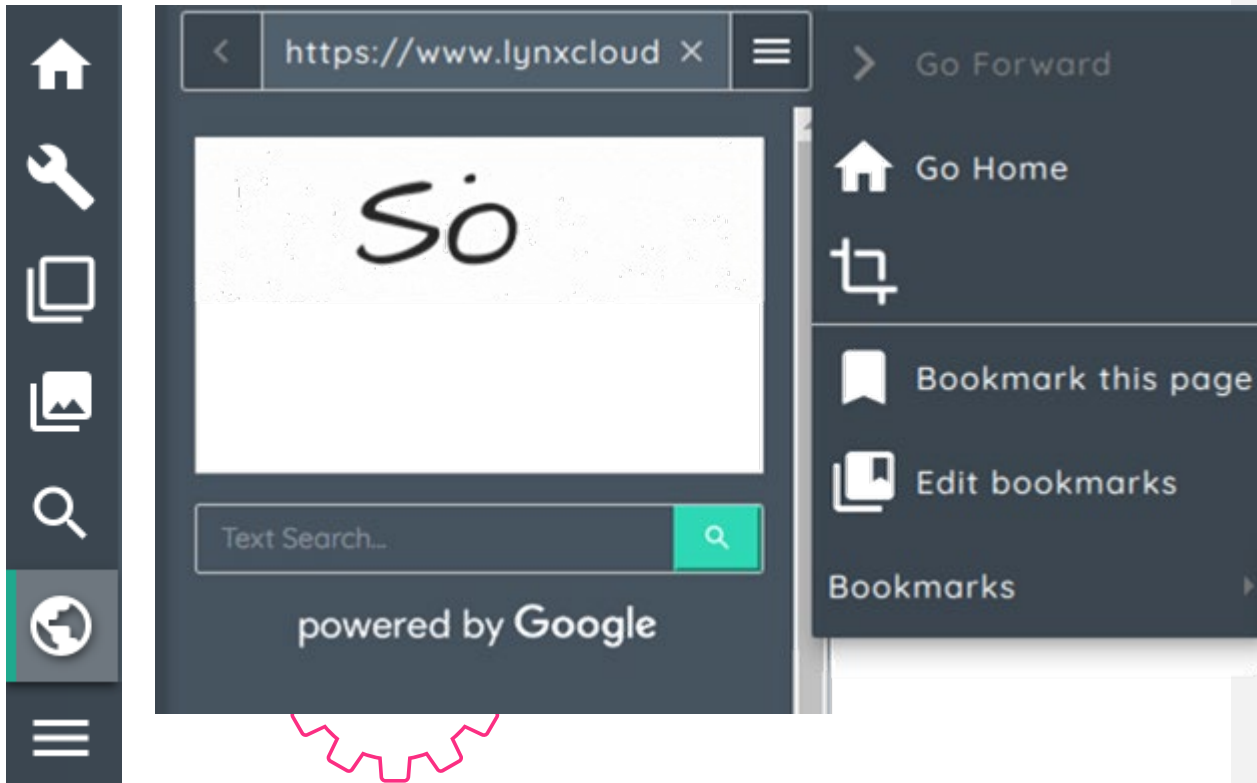

ABC

You can select from **Bing Images**, **Youtube** videos, **GIF's**, **Clipart** (if installed) as well as high resolution **Unsplash** images from the Media Search Panel.

When you have selected your desired content, **simply drag and drop into your lesson** – if you are on a Clevertouch Screen you can drag multiple images at once.

The Browser Panel

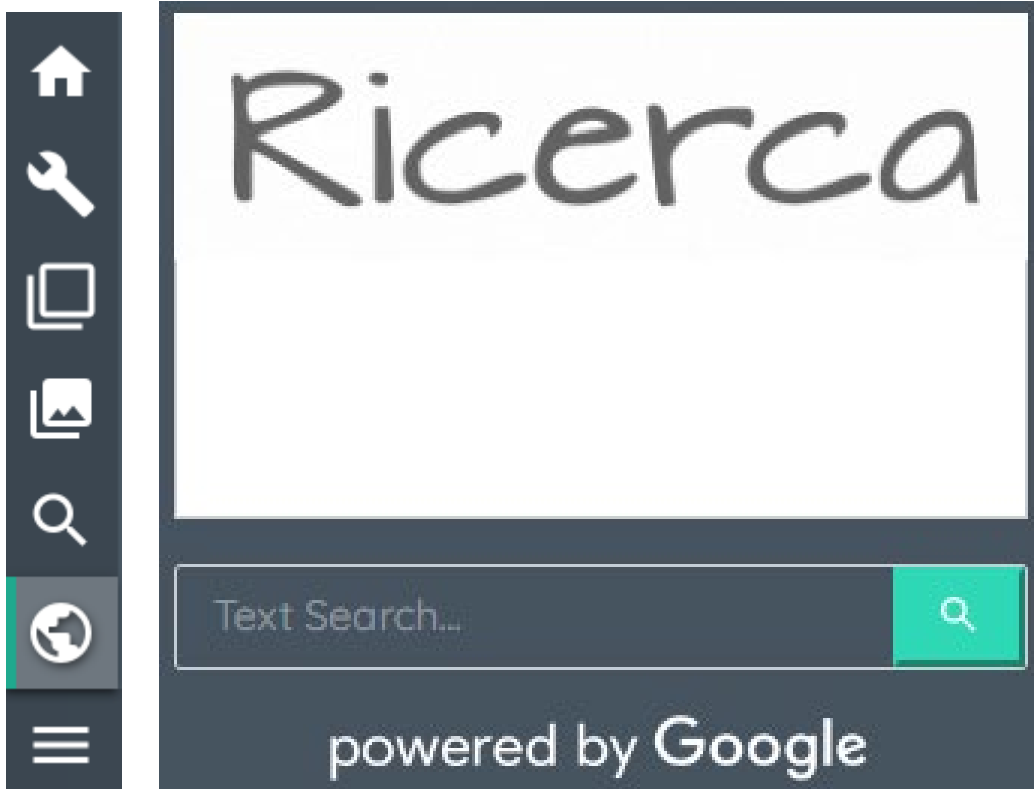

The Browser Panel allows you to **open websites** from within Lynx Whiteboard.

Simply type into the address bar or search box and you will be taken to your desired destination

Use the Browser settings menu to **capture a screenshot** from a website and paste it into your canvas.

You can also **create and edit bookmarks** to your favourite websites.

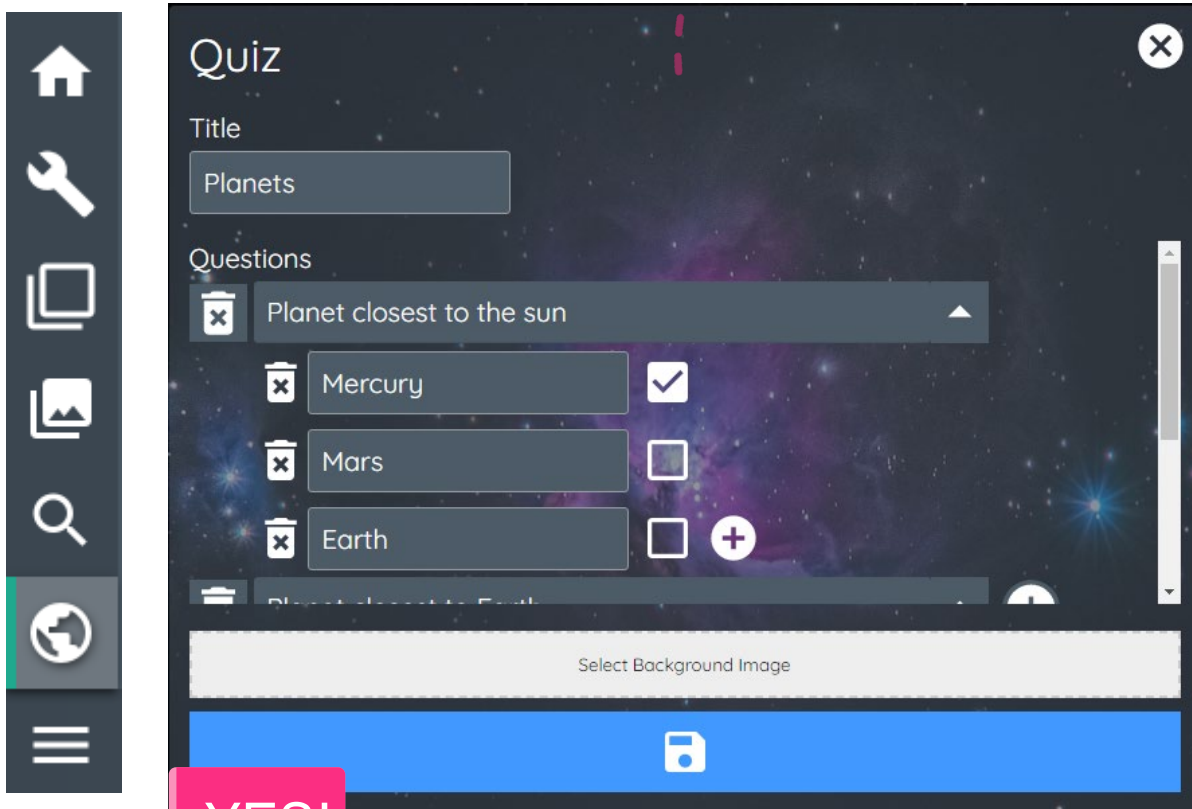

Google Search

Go to the Browser Panel.
There are **two options** for using Google Search.

1. **Type** your search into the "Text Search" area
2. **Write** with your finger or stylus in the white box – Lynx Whiteboard will be able to read your handwriting

Quiz

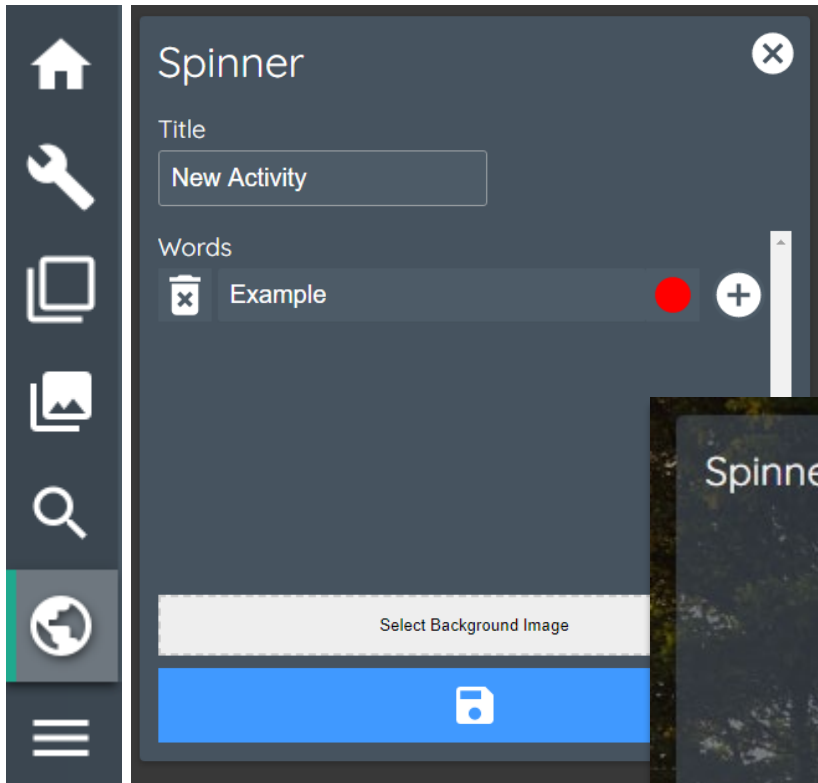

YES!

1. Go to the Browser Panel.
2. Select Quiz
3. Press the "+" icon
4. Enter your questions and check the box that has the correct answer

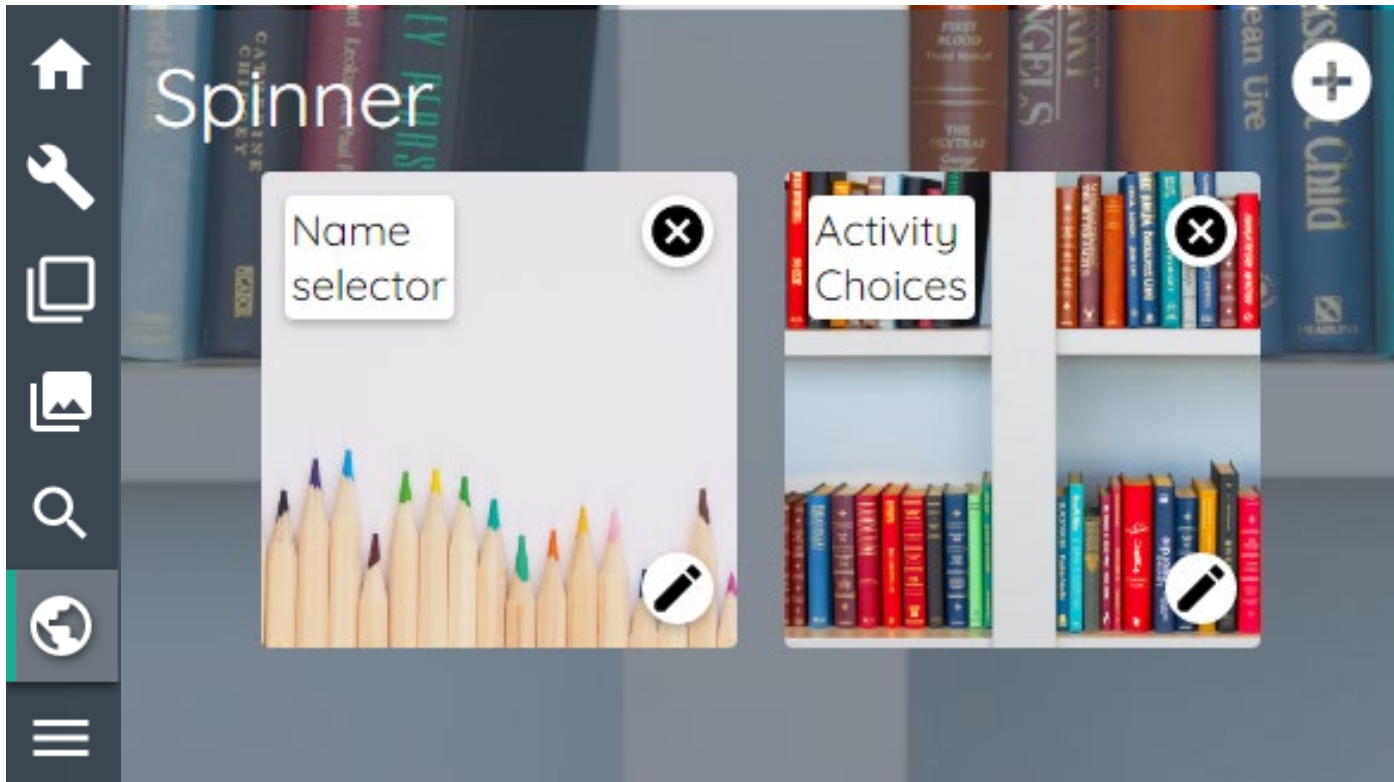

Creating Spinners

- Go to the Browser Panel. Select Spinner then press the "+" icon
- **Enter a title** and the words to go into the spinner
- **Add more words** by clicking the "+" icon
- **Change the colour** of the segments on the spinner by pressing the red circle
- **Set a background image** and press the save button

Spinners

1. Go to the Browser Panel. Select Spinner
2. Choose from a Spinner that you have previously created
3. Press the pencil icon to edit the content

Word Search

ABC

1. Go to the Browser Panel. Select Wordsearch
2. Press the “+” icon to create a new wordsearch
3. Choose your grid size, and whether the words are shown alongside the wordsearch
4. Set your background image and hit save

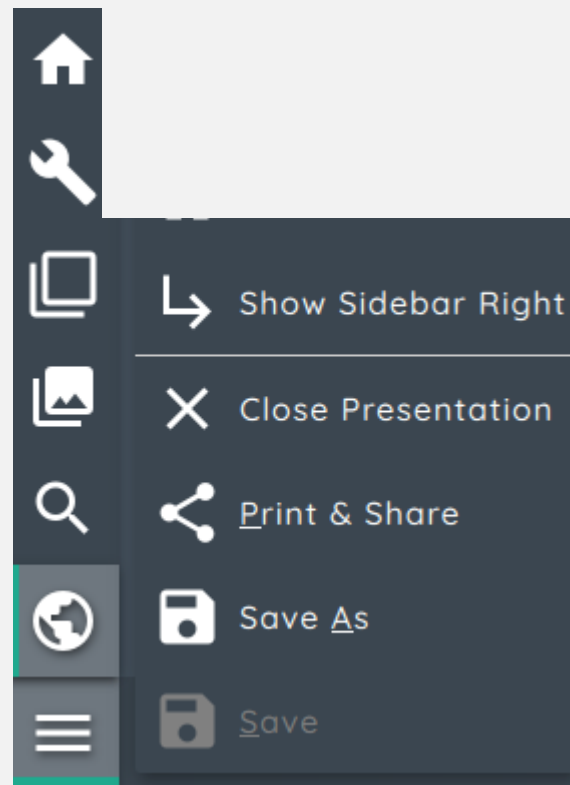

Pairs & Sliders

- Go to the Browser Panel.
- Select **Pairs** Or Select **Sliders** depending on the activity you want

The Save Panel

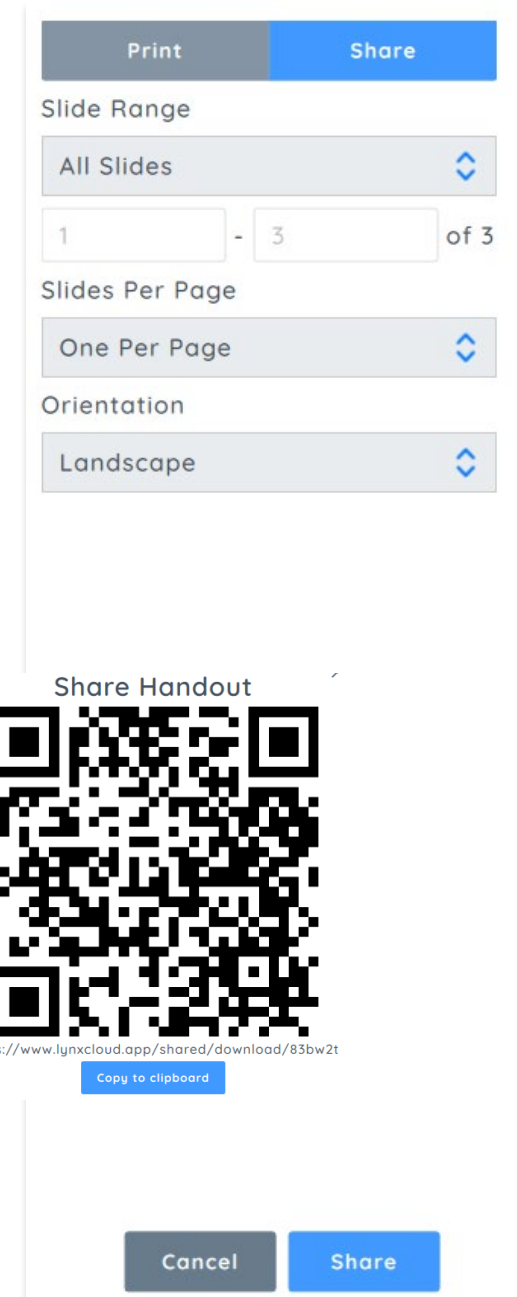

The Save Menu allows you to Save your lesson in a **variety of formats** and share your presentation to drives as well as via QR Code.

*To Save to Google Drive, Dropbox or OneDrive you will first need to add these drives on **lynxcloud.app***

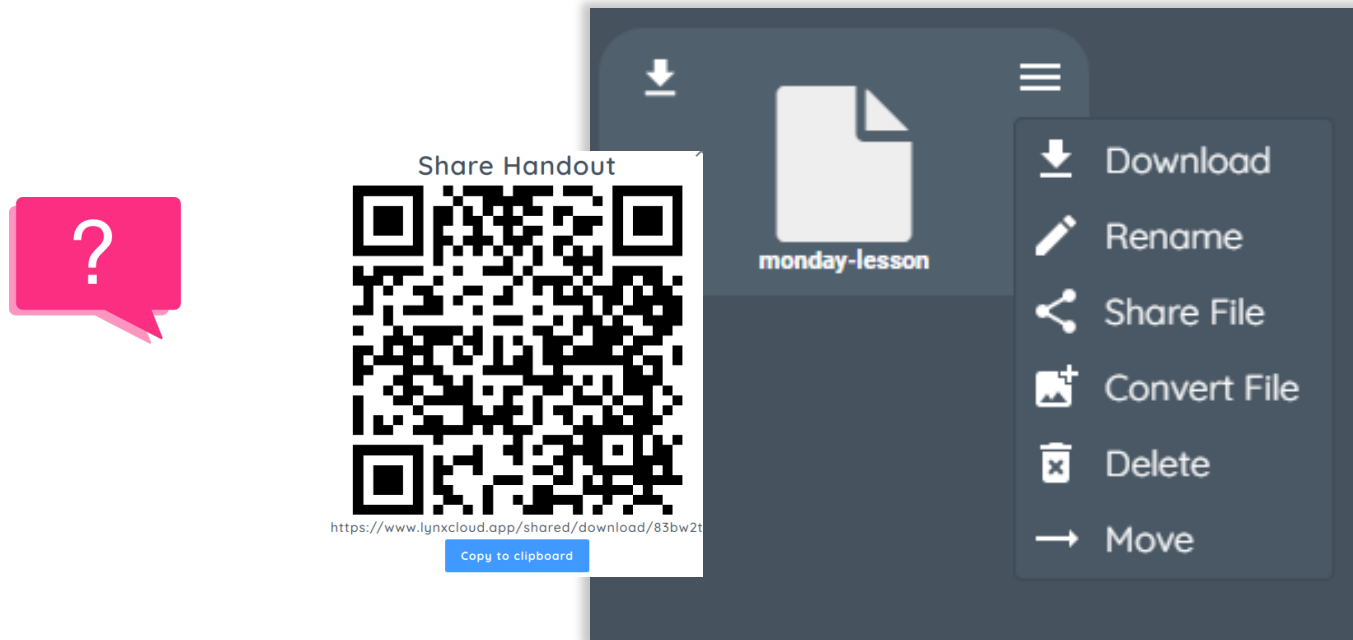

Sharing via QR code

1. Choose "Print & Share"
2. Select "Share"
3. Press the blue Share button
4. Students can scan the QR code with their tablet or phone, and then download the lesson to their device as a PDF
5. Or you can "copy to clipboard" and email the link out to your students
6. If logged in to the **lynxcloud.app** website, then you can also save the lesson to your LynxCloud

The screenshot shows the 'Print & Share' dialog box in the LynxCloud application. At the top, there are two buttons: 'Print' (grey) and 'Share' (blue). Below these are three dropdown menus: 'Slide Range' set to 'All Slides', 'Slides Per Page' set to 'One Per Page', and 'Orientation' set to 'Landscape'. The 'Slide Range' section also includes input fields for '1' and '3' with a 'of 3' label. Below the dropdowns is a 'Share Handout' section featuring a large QR code. Underneath the QR code is a URL: <https://www.lynxcloud.app/shared/download/83bw2t> and a 'Copy to clipboard' button. At the bottom of the dialog are 'Cancel' and 'Share' buttons.

Sharing via QR code continued

1. If logged in to the **lynxcloud.app** website, then you can also save the lesson to your LynxCloud as a PDF
2. From here you can share the PDF
